Blouse/Shirt Test

SCRIPT

Next, I would like you to stand up and put a blouse/shirt on and button it. You may put it on over your clothes (but please remove your sweater/jacket).

(I have a medium, large, and extra large blouse/shirt. Which one should we use?)

When I hand you this blouse/shirt, please put it on as you normally would when you are dressing, and button all buttons except the top (collar) one.

Please tell me when you are done.

IF BUTTONED INCORRECTLY: Please take the blouse/shirt off and begin again.

1. Is participant able to put on Blouse/Shirt? The blouse/shirt is considered on if both arms are in the sleeves and the collar is up around the participants neck (not across participants back).

puton_blst   Specify: putonsp_blst
-9
 1 Yes
 0 No
-7 Refused
 4 Not Attempted
