Alcohol Use

Form Type: Self-Administered Questionnaire

LEGEND:

Raw form variable names are located next to the question they represent and do not have a border around the variable name.

Calculated variable names are derived from other variables and have a border around the variable name. The calculated variables names are located in close proximity to the questions from which they were derived.

Some of the questions and measurements on these forms are not being released, and therefore no variable name is provided for them.

ALCOHOL

Now some questions about drinking alcoholic beverages. Not much is known about the effect of alcohol on bone, so we'd like you to be as accurate as you can in your answers.

Alcoholic beverages include beer and wine, liquor such as whiskey and vodka, mixed drinks such as manhattans, and martinis, and any other drink that contains alcohol.
