Give the participant the "Sample Response Sheet" and give the directions for completing the sample.

### Sample

- Completed correctly
- Unable to complete correctly
- Participant refused
- Unable to test (poor vision, arthritis, severe tremor, cast, etc.)

**V9TRSB**

If the participant completes the sample item correctly and shows that she understands the task, say, "Good! Let's try the next one", and continue on with the test.

Hand the participant the "Test Response Sheet" and give directions.

Allow a maximum of 180 seconds (3 minutes) for the task. If the participant goes over 180 seconds, stop, score this test, and go on to the next test.

**V9TBSEC**

### Was the test completed in 3 minutes?

Yes → Total time (maximum=3 minutes)  minutes   seconds

No → Last number or letter completed correctly   number  letter

Refused **V9TRTB**

**V9TRLNUM**

**V9TRLBTS**

Attempted, stopped before 3 minutes was over

**V9TREM\***

Did participant have a hand tremor?  None  Mild  Marked

*\*not released in AA cohort*
