--	--	--	--	--

**Say:** Some people have difficulty performing everyday activities when they feel tired or sleepy. The purpose of the next set of questions is to find out if you generally have difficulty carrying out certain activities because you are too sleepy or tired. In questions 1 - 25, when the words 'sleepy' or 'tired' are used, it means the feeling that you can't keep your eyes open, your head is droopy, that you want to 'nod off', or that you feel the urge to take a nap. These words do not refer to the tired or fatigued feeling you may have after you exercise.

**Instructions:** Please fill in the circle for the answer to questions 1-26. Select only one answer for each question. Please try to be as accurate as possible.

	I don't do this activity for other reasons	No difficulty	Yes, a little difficulty	Yes, moderate difficulty	Yes, extreme difficulty
1 Do you have difficulty concentrating on the things you do because you are sleepy or tired?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
