## DOCUMENTATION FOR THE PUBLIC-USE SWAN VISIT 15 DATASET

## 1. Who is included in the public use dataset:

The dataset contains follow-up visit 15 information for the subset of the original cohort still participating in the SWAN longitudinal study from the seven clinical sites. The sites include Boston, MA, Pittsburgh, PA, Oakland and Los Angeles, CA, Detroit, MI, Newark, NJ, and Chicago, IL.

## 2. How this codebook is constructed:

Following this documentation section are copies of each of the questionnaires that were used at visit 15. A list of additional variables is also provided. The questionnaires include the variables available for public use next to the question in bold red uppercase underlined letters. Those variables not available for public use have a # before the variable and are in blue. Any special notes are indicated with footnotes at the bottom of the page.

The assigned participant ID has been replaced with a randomly generated ARCHID in order to protect participant privacy. The *baseline* interview date is denoted as day 0 and is used as the basis for all other dates. All other questionnaires or data collected that have a date attached have been converted to the number of days from the baseline interview. For example, if the Visit 15 Self-Administered Questionnaire Part A was collected 15 years after the baseline interview, the day for the Self-Administered Part A would be day 3,650 and the Baseline Interview would be day 0.

All variables for visit 15 have a 15 at the end of the variable name.

## 3. Missing data coding:

Original missing codes (-1: not applicable, -7: refused, -8: don't know, -9: missing) have been recoded to SAS missing codes (B: not applicable, .D: refused, .C: don't know, and .A: missing).

### 4. Ways this data can be used and additional notes

### **Interview Questionnaire**

- In general, most 'Other, specify' text fields are not included in the dataset.
- Age (AGE15) was calculated from date of birth to when the interview form was completed, and is rounded to the next lowest integer. If the interview date is not available and the Self-Administered Part A date is available, that date was used to compute AGE15.
- CES-D scores can be created from the questions in E.5.
- Michigan Neuropathy Screening Instrument (MNSI) summary and dichotomous scores can be derived from questions D6a through D6n, with some questions reverse coded.
- Modified Charlson Comorbidity Index and the NSHAP Comorbidity Index can be derived from the questions in B1-B12.

The reference for these indices is: Vasilopoulos, T, Kotwal A, Huisingh-Scheetz M, Waite L, McClintock M, and Dale W, Comorbidity and Chronic Conditions in the National Social Life, Health and Aging Project (NSHAP), Wave 2, <u>J Gerontol B Psychol Sci Soc Sci</u>. 2014 Nov;69 Suppl 2:S154-65. PMC4303089.

- Several forms of the interview could be administered, depending on the amount of time available with the participant. This visit also implemented the final menstrual period form, which contains some of the same variables as are found in the interview. The flag FORMINT15 was set to indicate which version of the interview was administered:
  - a) FUI indicates participants that completed the full interview.
  - b) AINT (Abbreviated FU interview) completed an abbreviated interview in combination with either an abbreviated or full Self-Administered Part A form.
  - c) FMP (Final Menstrual Period Form) could be filled in at the clinic or home.

Differences between Visit 12 and Visit 15: Certain questions that were asked for the first time at Visit 12 were asked as 'since the last study visit' at Visit 15. These questions include the B6 (diagnosed or treated for heart problems), B12 – B13 (the knee and hip replacement questions), and section C (taken preparations for the treatment of hot flashes). These variables were prefaced with an 'L' to indicate that the variable was asked with 'since the last study visit' as the time frame.

## Self-Administered Questionnaire Part A

- The participant could fill in a full Self-Administered Questionnaire, Part A, a phone interview, or an abbreviated version as described above (AINT or AFUI). The flag FORMSAA15 delineates those who did the full questionnaire (SAA) from the participants who did the abbreviated questionnaire (AIN), the phone interview (PAT) or the abbreviated plus follow-up interview (AFU).
- The income question (F.1) was omitted due to small cell sizes.
- Flag Data Source/Form (DATAFLG15) is a flag variable to indicate whether the record is from the Self-Administered Questionnaire Part A (SAA), the Abbreviated Follow-up Interview (AIN), or the Self A Amended Telephone Interview (PAT). Data collected varies by form (see Additional Notes below).
- Out of Visit Collection Window Flag (OUTOF15) is a flag variable for cases where the questionnaire was completed after the study-wide Visit 15 cut-off date of 02/28/2017 (OUTOF15 = 1) or was completed before Visit 15 officially began on 05/27/2015 (OUTOF15 = -1).
- Positive and Negative Affect Schedule (PANAS) Scores can be derived from questions H.1.a through H.1.t. A subset of the participants answered the Japanese version, which has 22 culturally appropriate items rather than the 20 items asked on the English version. There is no direct correlation between the two versions, so all Japanese items have been set to missing. In addition, question H.1.b has been set to missing because 'disinterested' was on the form, but the correct PANAS term is 'distressed.' It is suggested that the raw 9 item negative affect score, when multiplied by 1.112, can be made comparable to the positive affect score and the outcomes found in the literature.
- The variable FEARFUL15 from the SAA form has been rename FEARFULA15 to avoid confusion with the variable of the same name from the INT form, which conveys different information.

### Self-Administered Questionnaire Part B

- There are inconsistencies with the answering of this questionnaire, but due to the nature of the form, the interviewers did not contact the participant to clarify the information.
- The flag variable FLGSABV15 indicates completion dates that were outside of the official data collection period for the 15 visit (05/27/2015 02/28/2017). Any valid values were flagged as "0" and invalid values were flagged as "1".

### **Physical Measures**

- This dataset includes data from cohort participants who completed either the Visit 15 Physical Measures (PHY) form or the Visit 15 AINT (Abbreviated Interview), or the Visit 15 PATI (Self-A Amended Telephone Interview). The variable FORMPHY15 indicates which form was completed.
- In addition to the variables on the form, BMI15 was also calculated as weight in kilograms divided by the square of height in meters.
- Self-reported weight and height were collected, along with the reason for using self-reported measures.

## **Cognitive Function Form**

- Individual and summary scores are available for the following tests:
  - Rey Auditory Verbal Learning Test.
  - Backward Counting from 100
  - Letter Number Sequencing
  - o Rey Auditory Verbal Learning Test: Short Delay Word Recall
  - East Boston Memory Test
  - Symbol Digit Modalities
  - Digit Span Backward

- Several special codes were used in this dataset to indicate why tests (and test items) were not administered:
  - 6 = Not administered because of physical impairment
  - 7 = Not administered because of verbal refusal
  - 8 = Not administered because of a behavioral reason
  - 9 = Not administered for some other reason
  - 10 = Administered but not according to protocol
- In addition, the Letter Number Sequencing (FLGLNS15 helps delineate these differences) has the following differences in administration due to language:
  - Chinese speaking participants used the English version of the LNS with the letters said in English and the numbers said in Chinese. (Chinese speakers did know the order of the English language alphabet.)
  - Japanese speaking participants used a published version of the LNS created for Japanese women by Japanese researchers. However, the Japanese LNS is not a "literal" translation of the English LNS. There are some differences necessitated by the unique attributes of the English and Japanese languages. A summary of the differences between the English and the Japanese language versions follows:
    - 1) Japanese alphabets ("kana かな"or Japanese aiueo alphabetsあいうえお50音) were used. Rationale: Letter-Number Sequencing (LNS) using the English alphabet was tested, but it was too difficult and too unfamiliar for Japanese native speakers. In one study one half of healthy elderly Japanese in Japan couldn't process L-N Sequencing using English alphabets (Yamanaka et al., 2004\*). Therefore, Japanese psychologists developed a form using the Japanese alphabet ("kana かな"or Japanese aiueo alphabetsあいうえお50音). Reference: Katsuo Yamanaka, Hitoshi Dairoku, Hisao Maekawa, Kazuhiro Fujita, "Preliminary Research on Standardization of Letter-Number Sequencing Test in WAIS-III in the Japanese version (2)," presented at the annual conference of the Japanese Psychological Association, Tokyo, 2004.
    - 2) Japanese psychologists introduced letter-only practices and number-only practices first. It was too difficult for Japanese test takers to respond to the LNS that began with combined groups of letters and numbers. This difficulty arises because the Japanese aiueo alphabet is not one dimensional like English alphabet letters. Each component of the Japanese aieuo alphabet consists of 10 rows of 5 sounds (each ending w/ a vowel) and one sound "n &".
    - 3) The Japanese LNS had to be re-designed (compared to the English version) in some fundamental ways to similar sounding "letters" and numbers, which could cause misperception and errors. The main examples of this are given here:
      - a) To avoid Japanese aiueo alphabets such as "shi し" and "ku < " which may be mixed up with the numbers in Japanese due to their sounds, (i.e., "shi" is number 4四; "ku" is number 9九.) As a result, we pronounce number 4 as "yon四," and number 9 as "kyu九."
      - b) To avoid Japanese aiueo alphabets such as "iい" and "saさ" in Japanese aiueo alphabets because they are likely to be mixed up with numbers.
      - c) To use Japanese aiueo alphabets such as "toと" and "kaか" only in the beginning or the end of a question/practice, because they sound like a particle in grammar.
      - d) To avoid Japanese aiueo alphabets such as "koこ" and "riり" in the end of a question/practice because they can be misunderstood as a number.
      - e) To avoid confusing combinations such as "3-'taた'," "'kaか'-3' or "'toと'-3" which may imply other meaning such as "santa サンタ(Santa)," "kaasan母さん (mother)" or "tohsan 父さん (father)."
      - f) To avoid Japanese numbers such as "ni に(2)" or "goご (5)" which have 1 mora (unit of syllable) because it's difficult for a test taker to distinguish a number from a letter phonetically.
      - g) Japanese psychologists created only up to 7 digits in the Japanese version (instead of 8 digits in the English version) because almost none of the Japanese test takers answered 8 digits. They didn't have 2 digits in order to reduce the burden of the test taker after adding letter-only and number-only questions.

- An LNS total score was calculated when a participant answered some of the questions, then verbally refused to answer any more questions.
- In addition, the Rey Auditory Verbal Learning Test (FLGREY15 helps delineate these differences) has the following differences in administration due to language:
  - Chinese speaking participants used a revision based on a published Cantonese version of the Rey – the Chinese Rey Auditory Verbal Learning Test (C-RAVLT). A list of revisions that were made to the English version, in order to be suitable to Chinese speakers, follows. This approach taken to the creation of the Chinese version is summarized in items 1-3 below (Lee et al., J Clin Exp Neuropsychol. 2002 24:615-32; Tong et al., Brain Injury. 2002, 16: 987-95).
    - All the Chinese words are exact translations of the English word list, except for one case 'turkey'. The translation of turkey - it is "fire chicken" -- because that is how you describe that animal in Chinese. There is no exact translation of the English word, "turkey".
    - 2) The "syllable-equivalents" of most of the exact Chinese translations are the same as the number of syllables in the English words. However, in most cases, the translations of a single 2-syllable word in English require two one-syllable words in Chinese. For example, the translation of curtain is 2 one-syllable words which, taken together, mean curtain. There is no one-word translation of curtain. But, the "syllable-equivalent number" is the same in both languages if you add up the two short Chinese words and think of them as syllables. Other examples of words in this category are coffee (#4), color, house, river (13 to 15).
    - 3) There are some one syllable words in English, for example, school and moon (5th and 7th words), that require two words to be translated to Chinese. Thus, the syllable-equivalents are not the same. But the duration of how long it takes to say the word is roughly the same.
  - In addition, some additional modifications to the translations for Chinese speakers. For drum, bell, nose, house and river, SWAN used different translations from that used in the published Cantonese version.

SWAN Version	Published Cantonese version
Drum (exact translation, two Chinese characters)	Flute (translation of Flute, one Chinese character)
Bell (exact translation, one Chinese character)	Bell (exact translation, two Chinese characters)
Nose (exact translation, one Chinese character)	Nose (exact translation, two Chinese characters)
House (exact translation, two Chinese characters)	House (exact translation, one Chinese character)
River(exact translation, two Chinese characters)	River (exact translation, one Chinese character)

- Japanese speaking participants used a published Japanese version (Wakamatsu et al., Nippon Rinsho, 2003, 61 suppl 9: 279-84). In the published Japanese version, some words could not be directly translated from the English version due to rare semantic frequency (i.e. turkey is not eaten by Japanese, nor is it a part of a holiday, etc., so duck was used instead). In the Japanese translation the word lake was used instead of river.
- The Los Angeles SWAN site made one further modification to the published version by altering the translation of the word, 'farmer.' The direct Japanese translation has multiple meanings; thus, in the SWAN version, the word 'farm house/farming family' was used instead of farmer.
- LNUMPCT15 (Letter Number Sequencing Percent Correct Score): The English, Spanish, and Chinese versions of the LNS include 7 levels of testing, with 3 items at each level, for a possible range of 0-21 for the Total Score. The Japanese version of the LNS has 8 levels of testing, with 3 items at each level, for a possible range of 0-24 for the Total Score. Although the Japanese form of the LNS is longer than the English version, the degree of difficulty of the Japanese form and the English form was designed to be equivalent (see above reference). Based on psychometric properties, achieving a score of 24 on the Japanese version is judged to be the equivalent of achieving a score of 21 on the English version. Because the absolute value of the total LNS score is

greater for the Japanese version than for the non-Japanese versions (24 vs. 21, respectively), LNS scores are expressed as the percent correct.

## Bioimpedance

- Body composition was measured using bioimpedance equipment. Percent body fat (equation provided by Dr. MaryFran Sowers), skeletal muscle mass (Janssen, 2000), fat free mass, total body water, and percent body fat (all provided by RJL Systems and validated using NHANES III data (Chumlea, 2002)) are also provided.
- Variable MISSPHY15 flags missing physical measures that caused created variables to be missing, and MISSCON15 flags where conductance was missing. A flag (FLAGSRP15) indicates where selfreported physical measures were used in calculations.

## **Physical Functioning**

- <u>Visit 12-to-visit 15 protocol change:</u> The sit-to-stand assessment performed at Visit 12 is not comparable to the sit-to-stand assessment performed at visit 15. Specifically, at Visit 12, the sit-to-stand assessment was comprised of five repetitions, performed with or without chair assistance, and recorded to the nearest tenth of a second. The Visit 12 protocol had recorded five separate times for the sit-to-stand assessment. The Visit 13 and Visit 15 protocol required a single-chair stand preceding a repeated-chair stand comprised of five repetitions that were timed together and recorded to the nearest hundredth of a second. The sit-to-stand assessment will be referred to as the chair stand at Visits 13 and 15 to avoid confusion.
- The timed 40-foot walk was an optional assessment at Visit 15. The Los Angeles and New Jersey SWAN study sites did not participate in the timed 40-foot walk assessment. Therefore, these women have been set to .B (not applicable) for this assessment. Apart from these site-specific protocols, all subjects attending a Visit 15 follow-up visit were expected to complete the Physical Functioning Assessment form.
- The timed stair climb assessment at Visit 15 was not completed by the Boston site. These women have been set to .B (not applicable) for this assessment. Apart from these site-specific protocols, all subjects attending a Visit 15 follow-up visit were expected to complete the Physical Functioning Assessment form.
- The following created variables were added to assist analysis:
  - WLKTIM115 WLKTIM215 are variables that represent the completion time, in seconds, for each of the 2 timed 40-foot walk assessments, which combines the associated minutes (WALKMI115-WALKMI215) and seconds variables (WALKSE115-WALKSE215).
  - WALKMIN15 is the minimum of the two timed 40-foot walk assessment repetitions. WALKAVG15 is the average of both timed 40-foot walk assessment repetitions for each subject, rounded to the nearest tenth of a second.
  - RGRPAVG15 and LGRPAVG15 are the average of all three right/left hand grip strength assessment repetitions, rounded to the nearest integer.
  - RGRPMAX15 and LGRPMAX15 are the maximum of the three right/left hand grip strength assessment repetitions for each subject completing the right/left hand strength assessment.
- In addition, Short Physical Performance Battery (SPPB) variables may be created from the physical function variables provided in the dataset, using the following references:
  - To impute SPPB component scores:
    - Ostir GV, Volpato S, Fried LP, Chaves P, Guralnik JM. Reliability and sensitivity to change assessed for a summary measure of lower body function: results from the Women's Health and Aging Study. Journal of Clinical Epidemiology. 2002;55(9):916-921.
  - <u>To calculate the continuous SPPB summary score (NIA method)</u>: Time cutoffs used for scoring each SPPB component were derived from the Short Physical Performance Battery Protocol and Score Sheet (https://www.nia.nih.gov/research/labs/leps/shortphysical-performance-battery-sppb).

Guralnik JM, Simonsick EM, Ferrucci L, et al. A short physical performance battery assessing lower extremity function: association with self-reported disability and prediction of mortality and nursing home admission. Journal of Gerontology. 1994;49(2):M85-M94.

• To calculate the SPPB categorical variables:

Guralnik JM, Ferrucci L, Simonsick EM, Salive ME, Wallace RB. Lower-extremity function in persons over the age of 70 years as a predictor of subsequent disability. New England Journal of Medicine. 1995;332(9):556-562.

Puthoff ML. Outcome Measures in Cardiopulmonary Physical Therapy: Short physical performance battery. Cardiopulmonary Physical Therapy Journal. 2008;19(1):17.

## **Everyday Activities**

- This data is comprised of two components: (1) Everyday Cognition (ECOG-12) and (2) functioning and disability questions using the World Health Organization Disability Assessment Schedule (WHODAS 2.0).
- ECOG-12 is a shorter version of E-Cog and comprised of 12 questions (section B. a-l) designed to
  detect cognitive and functional decline. The ECog-12 strongly correlated with established functional
  measures and neuropsychological scores, only weakly with age and education, and demonstrated
  high internal consistency. The ECog-12 shows promise as a clinical tool for the measurement of
  general and domain-specific everyday functions in the elderly as well as assisting clinicians in
  identifying individuals with dementia. Please refer to the following reference for further details:
  - Farias ST, Mungas D, Harvey DJ, Simmons A, Reed BR, DeCarli C. The measurement of everyday cognition: Development and validation of a short form of the Everyday Cognition scales. Alzheimer's & Dementia. 2011 Nov 30;7(6):593-601.
- Note: Checks were run and verified where women indicating 0 days with difficulties responded with >0 days unable to perform activities, >0 days reduction of usual activities, or one WHODAS item = 5 (extreme).
- In addition, imputation may be executed using the following references: World Health Organization (WHO). 2010. Measuring Health and Disability Manual for WHO Disability Assessment Schedule: WHODAS 2.0, ed. K. N. Ustun TB, Chatterji S, Rehm J.
   <a href="http://whqlibdoc.who.int/publications/2010/9789241547598\_eng.pdf">http://whqlibdoc.who.int/publications/2010/9789241547598\_eng.pdf</a>>.
- The WHODAS 2.0 questionnaire is comprised of 36 questions (items C.1-C.36) that ask the participant to indicate how much difficulty they experienced performing a particular activity in the past 30 days. The WHODAS 2.0 scoring may be created using the following references:

Karvonen-Gutierrez CA, Ylitalo KR. Prevalence and correlates of disability in a late middle-aged population of women. Journal of aging and health. 2013;25(4):701-717.

Maierhofer S, Almazán-Isla J, Alcalde-Cabero E, de Pedro-Cuesta J. Prevalence and features of ICF-disability in Spain as captured by the 2008 National Disability Survey. BMC public health. 2011;11(1):897.

Virués-Ortega J, de Pedro-Cuesta J, Seijo-Martínez M, et al. Prevalence of disability in a composite≥ 75 year-old population in Spain: A screening survey based on the International Classification of Functioning. BMC public health. 2011;11(1):176.

### **Monofilament Testing Data**

An assessment testing the sensation or sense of touch in the feet was performed with a monofilament pressed to each foot.

## **Additional Measures**

Several variables pertaining to the blood draw (serum hormone and cardiovascular measures) that were part of the follow-up interview were moved to a separate questionnaire. Those variables are now included in this part of the data dictionary.

### Serum Hormone Measures

Estradiol and Testosterone were collected, but are undergoing a lab calibration study. This data will be available once this study is completed.

NOTE: These assays were run at Metabolomics using LC-MS/MS, a different lab and method than other visits.

#### Cardiovascular Measures

The Visit 15 cardiovascular results are included. A flag (FLAGSER15) indicates incomplete blood draw. FLAGFAS15 indicates the sample was non-fasting.

When the cardiovascular assay results were examined longitudinally, an unexpected "dip" in values was seen for all assays at Visits 15. Part of this trend was thought to be explained by the change in lab (Medical Research Laboratories (MRL) and University of Michigan Pathology lab) and method. A calibration study was conducted, and calibration equations were developed for and applied to cholesterol, HDL, LDL, and Triglycerides (Please note: for triglycerides, the calibration was applied to log transformed triglyceride values and then the calibrated triglyceride values were back transformed).

However, even with the calibrations applied, there is still an unexplained dip. It is strongly suggested that the Visit 15 assays only be used for cross-sectional analyses. If these data are used in longitudinal analyses, it is highly recommended that analysts 1) adjust for the visit effect and 2) run sensitivity analyses without the Visit 15 data.

From the baseline through Visit 07, ApoA and ApoB sample processing was run at the MRL lab. However, at Visit 15 ApoA and ApoB samples were processed at Heinz lab at Pittsburgh. Analysts from the cardiovascular committee developed calibration equations in 2014 to convert ApoA and ApoB result obtained from Heinz to equivalent MRL values. These equations have been applied, and the results provided in this dataset represent the calibrated values.

Calibrations were applied to CRP, and IL-6. In addition, the lower level of detection (LLD) samples were rerun for both CRP and IL-6. The LLD rerun samples did not require calibration, however the original samples for both CRP and IL-6 required a calibration that was log transformed, and the result then back transformed after calibration.

Endothelin-1, Factor VII and fibrinogen required no calibrations.

Glucose assays in visits 00-07 were run at MRL. Glucose assays from visit 09 forward were run at the University of Michigan Pathology Lab. Equations were developed to calibrate MRL values from visits 00-07 to University of Michigan Pathology Lab values to make all glucose values comparable in longitudinal analyses. Thus, glucose values from visits 00-07 are calibrated, and glucose values from visit 09 forward are as originally provided from the University of Michigan Pathology Lab. In addition, the flags for calibrated results were changed to the range of the lab results to which they were being calibrated.

Insulin assays in visits 00-07 were run at MRL, Insulin at visits 09-15 was done in the Central Ligand Assay Satellite Services (CLASS) lab. To calibrate insulin to a single lab for use in future longitudinal analyses, 400 samples drawn from visits 0-15 were run at a separate lab using the same method as the CLASS lab but a different machine. The results from the separate lab were used to calibrate CLASS to MRL at visits 09-15, the insulin values at visits 00-07 are left as originally provided from MRL.

C-Reactive Protein calibration equations were originally developed using a calibration sample that included both plasma and serum samples. Given there may be differences in results depending on the sample media used, study leadership decided that the calibration equations should be redeveloped using only the plasma samples. The calibration samples had two samples with unknown media and results very

close with and without them, so the missing results were included. Investigators will want to review FLAGSER15 for a missing value for exclusion.

#### Additional variables

A variable describing the race/ethnicity of participants (RACE) and study site (SITE) were added from the Screener dataset. See the Additional Measures section at the end of the codebook for descriptions.

Date of completion variables (INTDAY15, SAADAY15, SABDAY15, PHYDAY15, HRMDAY15, COGDAY15, BIODAY15, and HYSTDAY15) are given in days from interview date at baseline. Note that for 5 participants, interview completion dates at baseline were not available and alternative dates were substituted either from the Self-Administered Questionnaire-A or Physical Measures completion dates at baseline.

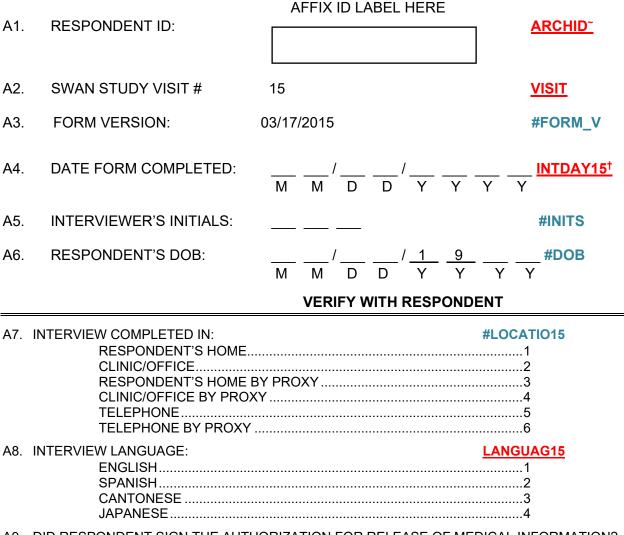

#### Longitudinal Measures

Please note that additional study measures are provided in separate longitudinal datasets. These datasets include: Menopausal Status, Bone Mineral Density, Medication Drug Groups, and Vitamin D.

## **ANNUAL FOLLOW-UP INTERVIEW**

Study of Women's Health Across the Nation

SECTION A. GENERAL INFORMATION

## **OCCUPATIONAL QUESTIONS**

These next few questions concern employment. I'm going to ask you to tell me about any <u>changes</u> in your employment **since your last study visit.** 

F1. Since your last study visit, has there been a change in any of your jobs, that is: your place of employment, your job title, or your usual job tasks? CHNGJOB15

NO1	(F3)
YES	
N/A1	(F5, PAGE 17)

F2. During the **past 2 weeks**, did you work at any time at a job or business including work for pay performed at home? (Include unpaid work in the family farm or business. If you were on vacation, or scheduled leave or sick leave, please answer as though you were at your usual job.) JOB15

NO1	(F5, PAGE 17)
YES	( )

# Variable Excluded from Public Use Data File

Follow-up 15 Interview-Administered Questionnaire Codebook

F4.	On average, how many total hours a week do you work, for pay?	HOURSPA15
	≤ 10	1
	11-19	2
	20-34	3
	35-40	
	41-60	
	> 60	6
F5.	What is your current marital status? Would you say	MARITAL15
	Single/never married	1
	Currently married or living as married	2
		2
	Currently married or living as married Separated Widowed	2
	Currently married or living as married Separated	2 

## **OTHER STUDY PARTICIPATION**

We would like to know about your participation in a health related research study other than the SWAN Study. Participation in a data registry <u>would not</u> be considered participation in a health related research study. (A data registry is a study that does not require a woman to do anything more than allow access to her medical records.)

G1. Are you currently participating in any other health related research study that is <u>not</u> a data registry?

	STUDYOT1	5
No		(END)
Yes	2	(GO TO G1a)
Refused		(

G1a. If yes, what is the name of the research study (or studies)?

Please SPECIFY: \_#STUDYS115, #STUDYS215, #STUDYS315

G1b. If yes, do you receive health/medical care (medications, therapy, diet/exercise regime, etc.) as part of any other research study? <u>STUDYCA15</u>

No	1
Yes	2
Refused	
Don't know	

COMPLETE A "RX/OTC/VITAMIN/SUPPLEMENT MEDICATION" FORM <u>NOW</u>, IF NOT COMPLETED PREVIOUSLY.

## **INTERVIEWER OBSERVATION:**

H1. Length of interview: <u>#LENGTH15</u> minutes

H2. Do you have any other observations, comments or concerns about this interview? [Please note that if your concern may impact participant safety, it should be brought to the attention of the project director.]

INTERVIEWER-ADMINISTERED ANNUAL FOLLOW-UP FORM

Study of Women's Health Across the Nation

## SECTION B. RX/OTC MEDICATIONS SINCE LAST STUDY VISIT

# We last interviewed you on \_\_\_\_\_ [DATE]. We would like to ask you questions about what's happened to you since then.

I would like to begin the interview by asking you some questions about prescribed and over - the - counter (OTC) medications.

I will start by asking about any pills or medicines, including patches, suppositories, injections, creams and ointments which are <u>prescribed</u> by your doctor or other health care provider that you have taken <u>since your last study visit</u>.

	Since your last study visit		NO	YES	DON'T KNOW
B1.	Have you taken any medication, pills or other medicir (anticoagulants)?	ne to thin your blood <u>ANTICO115</u>	1	2	-8
B2.	Anything for your heart or heart beat, including pills of	or patches? HEART115	1	2	-8
В3.	Any medications for cholesterol or fats in your blood?	CHOLST115	1	2	-8
B4.	Blood pressure pills?	<u>BP115</u>	1	2	-8
В5.	Diuretics for water retention?	DIURET115	1	2	-8
B6.	Thyroid pills?	THYROI115	1	2	-8
В7.	Insulin or pills for sugar in your blood?	INSULN115	1	2	-8
B8.	Any medications for a nervous condition such as trans sleeping pills, or anti- depression medication?	quilizers, sedatives, <u>NERVS115</u>	1	2	-8
В9.	Steroid pills such as Prednisone or Cortisone?	STEROI115	1	2	-8
B10.	Prescribed medication for arthritis?	ARTHRT115	1	2	-8
B11.	Fertility medications to help you get pregnant?	FERTIL115	1	2	-8
B12.	<b>IV</b> (into the vein) medication to prevent or treat osteo thinning bones)?	porosis (brittle or OSTEIV115	1	2	-8
B13.	<b>Non IV</b> medications to prevent or treat osteoporosis (bones)?	brittle or thinning OSTEON115	1	2	-8
B14.	Birth Control pills?	<u>BCP115</u>	1	2	-8
B15.	Estrogen pills (such as Premarin, Estrace, Ogen, etc)?	ESTROG115	1	2	-8
B16.	Estrogen by injection or patch (such as Estraderm)?	ESTRNJ115	1	2	-8
B17.	Combination estrogen/progestin (such as Premphase of	or Prempro)? COMBIN115	1	2	-8
B18.	Progestin pills (such as Provera)?	PROGES115	1	2	-8
B19.	Any other <u>prescription hormones</u> that I haven't asked example vaginal rings (such as Femring), progestin in Depo-Provera), estrogen/testosterone combinations (s vaginal creams?	jections (such as	1	2	-8

## IF RESPONDENT HAS TAKEN ANY HORMONES (IF YES TO <u>ANY</u> OF B15 - 19) ASK B20, OTHERWISE GO TO Q B23.

B20. Were you using any prescription medications containing estrogen or progestin at the time of your last study visit? ESTLSTV15

NO1	<b>(B21)</b>
YES2	(B22)
DON'T KNOW8	(B21)

B21. I am going to read a list of some reasons why women start taking hormones, <u>not</u> including birth control pills. For each one, please tell me if it is a reason <u>why you</u> started taking hormones. (READ LIST a. THROUGH h.)

				NO	YES
	a.	To reduce the risk of heart disease	REDUHAR15	1	2
	b.	To reduce the risk of osteoporosis (brittle or thinning bones)	OSTEOPO15	1	2
	c.	To relieve menopausal symptoms	MENOSYM15	1	2
	d.	To stay young-looking	YOUNGLK15	1	2
	e.	A health care provider advised me to take them	HCPADVI15	1	2
	f.	A friend or relative advised me to take them	FRNADVI15	1	2
	g.	To improve my memory	IMPRMEM15	1	2

We have some questions that we are asking you to complete on your own. If anything is unclear to you, please feel free to ask questions. Study representatives are available and happy to help you. Please take as much time as you need with each question. It is very important to us that you complete the entire questionnaire. Please find the most appropriate response to each question and circle the number for the answer you choose.

Please pay careful attention to the time frames of these questions, such as, since your last study visit, in the past month, in the last 2 weeks, etc.

Please remember that this information will remain confidential.

Thank you for your participation in this important study.

## We are interested in learning more about women's health during their early 60's and beyond. This first set of questions asks about your health and use of health care.

B1. In general, would you say your health is excellent, very good, good, fair or poor? **OVERHLT15** (PLEASE CIRCLE ONE RESPONSE.)

Excellent	1
Very good	2
Good	3
Fair	
Poor	5
Don't know	

We are interested in learning more about your health care and health care decisions.

B2. Have your health care costs been covered by Medicaid (MediCal) in the past year? MEDICYR15

No	1
Yes	
Don't know	

B3. Do you currently have insurance that covers any part of your **doctor bills**? **INSURDR15** 

No	1
Yes	2
Don't know	8

B4. Do you currently have insurance that covers any part of your **prescription medication bills**? INSURME15

No	1
Yes	2
Don't know	

B5. Do you currently have insurance that covers any part of your hospital bills? **INSURHO15** 

No	1
Yes	2
Don't know	-8

B6. Since your last study visit, are there any health services that you needed but did not receive? <u>HLTHSER15</u>

No	
Yes	

B7a. IF YES: How many cigarettes, on average, do you smoke per day now? (If NONE, please indicate with a (0) zero and answer B7b.)

\_\_\_\_\_ CIGARETTES PER DAY

B7b. If you <u>stopped</u> smoking **since your last study visit**, what was the last month and year you smoked?

AVCIGDA15

HHMEMSM15

HOMEXPH15

### The next questions are about your exposure to smoke. If you are a smoker, please do <u>not</u> include yourself when answering Q B8 – B8b.

B8. How many members of your household smoke tobacco in the house (at least 1 cigarette, cigar or pipe bowl per day)?

\_\_\_\_ # PERSONS

B8a. **During the <u>past 7 days</u>**, on how many days were you exposed to tobacco smoke <u>inside your</u> <u>home</u>?

# DAYS => IF 0 DAYS, GO TO QUESTION B9. HOMEXPD15

B8b. **Over the <u>past 7 days</u>**, when you were exposed to tobacco smoke <u>in your home</u>, how many hours were you exposed during a typical day?

\_\_\_\_ # HOURS

The next questions are about your consumption of alcoholic beverages.

B9.	Since your last study visit, did you drink any beer, wine, liquor, or mixed drink	s? DRNKBEE15
	No	(GO TO B13, PAGE 5)

B10. How many glasses of beer (a medium glass or serving of beer is twelve ounces) did you drink on average per day, week or month? (PLEASE CIRCLE ONLY ONE NUMBER.)

#### **GLASBEE15**

None or less than one per month	1
1-3 per month	2
1 per week	
2-4 per week	
5-6 per week	5
1 per day	6
2-3 per day	
4 per day	8
5 or more per day	

B11. How many glasses of wine or wine coolers (a medium glass or serving of wine is 4 to 6 ounces) did you drink on average per day, week or month? (CIRCLE ONE NUMBER.) GLASWIN15

B12. How many glasses of liquor or mixed drinks (a medium serving is one shot), did you drink on average, per day, week or month? (CIRCLE ONE NUMBER.) GLASLIQ15

None or less than one per month	1
1-3 per month	2
1 per week	3
2-4 per week	4
5-6 per week	5
1 per day	6
2-3 per day	
4 per day	
5 or more per day	

B13. Compared to one year ago, how would you rate your health in general now? (CIRCLE ONE NUMBER.)
<u>HLTHAYR15</u>

Much better now than one year ago	1
Somewhat better now than one year ago	
About the same now as one year ago	
Somewhat worse now than one year ago	
Much worse now than one year ago	
That were now than one year ago	

B14.	The following items are about activities you might do during a typical day. Does your health now limit you in
	these activities? If so, how much? (CIRCLE ONE NUMBER ON EACH LINE.)

Activities	Yes, limited a lot	Yes, limited a little	No, not limited at all
<ul> <li>a. Vigorous activities, such as running, lifting heavy objects, participating in strenuous sports</li> <li>V ACTI15</li> </ul>	1	2	3
<ul> <li>b. Moderate activities, such as moving a table, pushing a vacuum cleaner, bowling, or playing golf</li> <li>M ACTI15</li> </ul>	1	2	3
c. Lifting or carrying groceries <u>LIFTING15</u>	1	2	3
d. Climbing several flights of stairs CLIMBS15	1	2	3
e. Climbing one flight of stairs <u>CLIMB115</u>	1	2	3
f. Bending, kneeling, or stooping <b>BENDING15</b>	1	2	3
g. Walking more than a mile WALKM15	1	2	3
h. Walking several blocks WALKS15	1	2	3
i. Walking one block WALK115	1	2	3
j. Bathing or dressing yourself <b>BATHING15</b>	1	2	3

B15. During the <u>past 4 weeks</u>, have you had any of the following problems with your work or other regular daily activities as a result of your **physical health**? (CIRCLE ONE NUMBER ON EACH LINE.)

	NO	YES
a. Cut down on the amount of time you spent on work or other activities PHYCTDW15	1	2
b. Accomplished less than you would like <b>PHYACCO15</b>	1	2
c. Were limited in the kind of work or other activities <b>PHYLIMI15</b>	1	2
<ul> <li>d. Had difficulty performing the work or other activities (for example, it took extra effort)</li> <li>PHYDFCL15</li> </ul>	1	2

B16. **During the <u>past 4 weeks</u>**, have you had any of the following problems with your work or other regular activities as a result of any **emotional problems** (such as feeling depressed or anxious)? (CIRCLE ONE NUMBER ON EACH LINE.)

	NO	YES
a. Cut down on the amount of time you spent on work or other activities <u>EMOCTDW15</u>	1	2
b. Accomplished less than you would like <b>EMOACCO15</b>	1	2
c. Didn't do work or other activities as carefully as usual <b>EMOCARE15</b>	1	2

B17. **During <u>the past 4 weeks</u>**, to what extent has your **physical health or emotional problems** interfered with your normal social activities with family, friends, neighbors, or groups? (CIRCLE ONE NUMBER.)

 INTERFR15

 Not at all
 1

 Slightly
 2

 Moderately
 3

 Quite a bit
 4

 Extremely
 5

B18. How much bodily pain have you had **during the <u>past 4 weeks</u>**? (CIRCLE ONE NUMBER.)

	BODYPAI15
None	1
Very Mild	2
Mild	3
Moderate	
Severe	5
Very Severe	6

B19. During the <u>past 4 weeks</u>, how much did pain interfere with your normal work (including both work outside the home and housework)? (CIRCLE ONE NUMBER.) PAINTRF15

Not at all	1
Slightly	2
Moderately	3
Ouite a bit	4
Extremely	5
Quite a bit Extremely	4

B20. These questions are about how you feel and how things have been with you **during the <u>past 4 weeks</u>**. For each question, please give the one answer that comes closest to the way you have been feeling. (CIRCLE ONE NUMBER ON EACH LINE.)

	How much of the time <u>during the past</u> <u>4 weeks</u>	All of the time	Most of the time	A good bit of the time	Some of the time	A little of the time	None of the time
a.	Did you feel full of pep? PEP15	1	2	3	4	5	6
b.	Have you been a very nervous person? NERV4WK15	1	2	3	4	5	6
c.	Have you felt so down in the dumps that nothing could cheer you up? <u>CHER4WK15</u>	1	2	3	4	5	6
d.	Have you felt calm and peaceful? CALM4WK15	1	2	3	4	5	6
e.	Did you have a lot of energy? ENERGY15	1	2	3	4	5	6
f.	Have you felt downhearted and blue? BLUE4WK15	1	2	3	4	5	6
g.	Did you feel worn out?WORNOUT15	1	2	3	4	5	6
h.	Have you been a happy person? HAPY4WK15	1	2	3	4	5	6
i.	Did you feel tired? <b>TIRED15</b>	1	2	3	4	5	6

### B21. **During the <u>past 4 weeks</u>**, how much of the time has your **physical health or emotional problems** interfered with your social activities (like visiting with friends, relatives, etc.)? (CIRCLE ONE NUMBER.)

SOCIAL15

All of the time	1
Most of the time	2
Some of the time	
A little of the time	
None of the time	

### B22. How TRUE or FALSE is each of the following statements for you? (CIRCLE ONE NUMBER ON EACH LINE.)

	Definitely true	Mostly true	Don't know	Mostly false	Definitely false
a. I seem to get sick a little easier than other people HEALSIC15	1	2	3	4	5
b. I am as healthy as anybody I know <b>HEALTHY15</b>	1	2	3	4	5
c. I expect my health to get worse <b>HEALWOR15</b>	1	2	3	4	5
d. My health is excellent <b>HEALEX15</b>	1	2	3	4	5

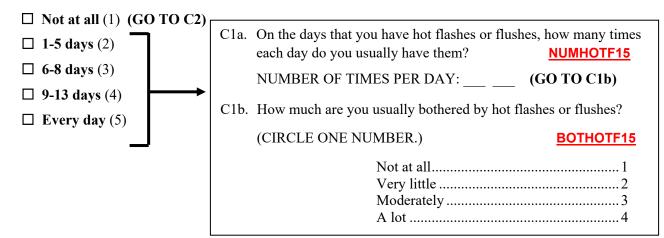

B23. These next questions ask about how much you agree with the following statements as they apply to you over **the last month**. If a particular situation has not occurred recently, answer according to how you think you would have felt. (PLEASE CIRCLE ONE ANSWER FOR EACH QUESTION.)

Ove	er the last month I have felt that	Not true at all	Rarely true	Sometimes true	Often true	True nearly all the time
a.	I am able to adapt when changes occur. TOADAPT15	0	1	2	3	4
b.	I can deal with whatever comes my way. CANDEAL15	0	1	2	3	4
c.	I try to see the humorous side of things when I am faced with problems. <u>SEEHUMR15</u>	0	1	2	3	4
d.	Having to cope with stress can make mestronger. <b>COPESTR15</b>	0	1	2	3	4
e.	I tend to bounce back after illness, injury or other hardships. <b>BOUNCBK15</b>	0	1	2	3	4
f.	I believe I can achieve my goals, even if there are obstacles. <u>MYGOALS15</u>	0	1	2	3	4
g.	Under pressure, I stay focused and think clearly. <b>FOCUSED15</b>	0	1	2	3	4
h.	I am not easily discouraged by failure. DISCFAI15	0	1	2	3	4
i.	I think of myself as a strong person when dealing with life's challenges and difficulties. STRGPER15	0	1	2	3	4
j.	I am able to handle unpleasant or painful feelings like sadness, fear and anger. PAINFEE15	0	1	2	3	4

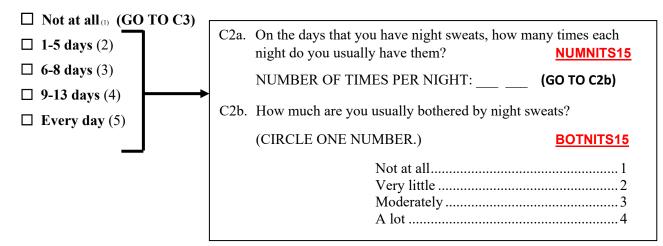

The following questions are about specific health problems you may have had over the past two weeks. Thinking back over the <u>past two weeks</u>, how often have you had...

HOTFLAS15

C1. <u>Hot flashes or flushes</u>? (CHECK ONE BOX AND ANSWER THE NEXT QUESTIONS AS INSTRUCTED.)

C2. Over the past two weeks, how often have you had <u>night sweats</u>? (CHECK ONE BOX AND ANSWER THE NEXT QUESTIONS AS INSTRUCTED.) <u>NITESWE15</u>

#### C3. Below is a list of common problems which affect us from time to time in our daily lives.

Thinking back **over the <u>past two weeks</u>**, please circle the number corresponding to how often you experienced any of the following. (CIRCLE ONE NUMBER FOR EACH ITEM.)

Ноч	w often have you ha	ıd	Not at all	1-5 days	6-8 days	9-13 days	Every day
a.	Back aches or pains	? <u>ACHES15</u>	1	2	3	4	5
b.	Knee pain?	KNEEPAI15	1	2	3	4	5
c.	Headaches?	HDACHE15	1	2	3	4	5
d.	Breast pain/tenderne	ess? <mark>BRSTPAI15</mark>	1	2	3	4	5

C3. (continued) Thinking back **over the <u>past two weeks</u>**, please circle the number corresponding to how often you experienced any of the following. (CIRCLE ONE NUMBER FOR EACH ITEM.)

How	v often have you had		Not at all	1-5 days	6-8 days	9-13 days	Every day
e.	Feeling blue or depressed	? <mark>FEELBLU15</mark>	1	2	3	4	5
f.	Dizzy spells?	DIZZY15	1	2	3	4	5
g.	Forgetfulness?	FORGET15	1	2	3	4	5
h.	Frequent mood changes?	MOODCHG15	1	2	3	4	5
i.	Heart pounding or racing	? HARTRAC15	1	2	3	4	5
j.	Feeling fearful for no reason	n? FEARFUL15	1	2	3	4	5
k.	Irritability or grouchiness	? IRRITAB15	1	2	3	4	5
1.	Tense or nervous?	NRVOUS15	1	2	3	4	5

f.	Becoming easily annoyed or irritable? ANNOY15	0	1	2	3
g.	Feeling afraid as if something awful might happen?	0	1	2	3

#### The next questions are about your sleep habits...

D1. **During the past month**, how many hours of **actual sleep** did you typically get at night? (This may be different than the number of hours you spend in bed.)

hours/night HRSSLEE15

D2.	Are	e you currently working for pay? (CIRCLE ONE NUMBER.) <u>CUR</u> No Yes	1 (AN		
	Ι	F working for pay "YES" to D2		]	
	a.	If working for pay, how many hours of <u>actual sleep</u> do you typic on a work night?	ally get LPW15		hours/night
	b.	If working for pay, how many hours of <u>actual sleep</u> do you typical a <b>non-work night</b> ? WHRS	lly get on LPNW15		hours/night
	Ι	F NOT working for pay "NO" to D2		1	
	c.	If NOT working for pay, how many hours of <u>actual sleep</u> do you get on a week night (Sunday through Thursday)? <u>NHRSLPW15</u>	typically		hours/night
	d.	If NOT working for pay, how many hours of <u>actual sleep</u> do you get on a weekend night (Friday and Saturday)? <u>NHRSLPWE15</u>			hours/night
D3.		we you ever worked for pay at a job where you <u>worked a night shift</u> an being at work overnight, for example, between 11 pm to 7 am.] ( <u>SHFT3Y15</u> No Yes	CIRCLE (	ONE NUMI	BER.)
	a.	How many years did you work night shift? years SHI	FTDUR15		
	b.	Are you still working the night shift? SHFTNOW	<u>15</u>		
		No Yes		(GO TO	D4)
D4	с.	If <b>NO</b> , how long has it been since you last worked the night s	hift?	yea	ars <u>SHFTLNG15</u>
D4.	1′m	going to ask you some additional questions about sleep.	NO	YES	DON'T KNOW
	a.	Do you snore? SNORE15	1	2	-8
	b.	Do you often feel tired, fatigued or sleepy during the day? SLEEPY15	1	2	-8
	c.	Has anyone observed you stop breathing in your sleep? STPBREA15	1	2	-8
D5.	Are	e you currently being treated for sleep apnea? (CIRCLE ONE NUM) No Yes	1		06, PAGE 12)

D6. These questions (a - c) are about your sleep habits <u>over the past two weeks</u>. Please circle <u>one</u> answer for each of the following questions. Pick the answer that best describes how often you experienced the situation in the <u>past 2 weeks</u>.

In	the past two weeks	No, not in the past 2 weeks	Yes, less than once a week	Yes, 1 or 2 times a week	Yes, 3 or 4 times a week	Yes, 5 or more times a week
a.	Did you have trouble falling asleep? <u>TRBLSLE15</u>	1	2	3	4	5
b.	Did you wake up several times a night? WAKEUP15	1	2	3	4	5
c.	Did you wake up earlier than you had planned to, and were unable to fall asleep again? <u>WAKEARL15</u>	1	2	3	4	5

D7. How satisfied are you with your current sleep? (CIRCLE ONE NUMBER.) **SATSLP15** 

	0	1	2	3	4
Very satisfied					Very dissatisfied

D8. Below are 5 statements that you may agree or disagree with. Using the 1 – 7 scale below, indicate your agreement with each item. (CIRCLE ONE NUMBER ON EACH LINE.)

Please be open and honest in your responding.

		Strongly disagree	Disagree	Slightly disagree	Neither agree nor disagree	Slightly agree	Agree	Strongly agree
a.	In most ways my life is close to my ideal. MYIDEAL15	1	2	3	4	5	6	7
b.	The conditions of my life are excellent. EXCELNT15	1	2	3	4	5	6	7
c.	I am satisfied with my life. SATWLIF15	1	2	3	4	5	6	7
d.	So far I have gotten the important things I want in life. <u>IMPTHNG15</u>	1	2	3	4	5	6	7
e.	If I could live my life over, I would change almost nothing. <u>NOCHANG15</u>	1	2	3	4	5	6	7

A common complaint among women is having to urinate a lot or the involuntary loss of urine. We would like to understand more about this problem. The following questions will help us understand how you've experienced these things over several time periods.

For the next question the time period is since your last study visit.

E1.	Since your last study visit, have you ever leaked, even a very sr	nall amount of urine, involuntarily or
	beyond your control? (CIRCLE ONE NUMBER.)	INVOLEA15
	No	1 (GO TO E5, PAGE 14)
	Yes	

#### For the next set of questions about leaking urine, please focus on the last month.

E2. <u>In the last month</u>, about how many days have you lost any urine, even a small amount, beyond your control? (CIRCLE ONE NUMBER FOR EACH QUESTION.) <u>LEKDAYS15</u>

Never	(GO TO E5, PAGE 14)
Less than one day per week	
Several days per week	
Almost daily/daily	

E3. <u>In the last month</u>, have you lost any urine, even a small amount, beyond your control when you were coughing, laughing, sneezing, jogging, picking up an object from the floor or similar type of activity? (CIRCLE ONE NUMBER FOR EACH QUESTION.) <u>LEKCOUG15</u>

No1	(GO TO E4)
Yes2	

a. About how many times per week have you lost any urine under these circumstances? (CIRCLE ONE NUMBER.) <u>COUGLWK15</u>

Less than once per week	1
At least once per week to several times per week	
Almost daily/daily	

b. If YES, how much urine do you lose when you leak under these circumstances? (CIRCLE ONE NUMBER.) <u>LEKAMNT15</u>

E4. <u>In the last month</u>, have you lost any urine, even a small amount, beyond your control when you have the urge to urinate and can't get to the toilet fast enough? (CIRCLE ONLY ONE NUMBER FOR EACH QUESTION.) LEKURGE15

No	1 (GO TO E5, PAGE 14)
Yes	· · · · · · · · · · · · · · · · · · ·
	2
★	

(CIRCLE ONE NUMBER.) **URGELWK15** Less than once per week......1 

About how many times per week have you lost any urine under these circumstances?

- If YES, how much urine do you lose when you leak under these circumstances?
- b. (CIRCLE ONE NUMBER.) **URGEAMT15**

A drop or two	1
Enough to change undergarments or wear a liner or pad	2
Enough to wet outer clothing	3
Enough to wet the floor	
e	

E5. In the last month, how often do you get the sudden urge to urinate that makes you want to stop what you are doing and rush to the bathroom? (CIRCLE ONE NUMBER.) **RUSHBAT15** 

Never	1
Rarely	2
A few times per month	3
A few times per week	4
Daily	
5	

#### For the next two questions, we are interested in learning about your urination patterns over the last 7 days.

E6. During the last <u>7 days</u>, on average, how many times did you go to the bathroom to urinate (empty your bladder) during the day?

\_\_\_\_\_ times per day

a.

E7. During the last 7 days, on average, how many times did you go to the bathroom to urinate (empty your bladder) during the night (after going to bed)?

times per night (after going to bed)

E8. In the last month, when I urinate, I feel a burning sensation in the opening where the urine comes out: (CIRCLE ONE NUMBER.) **BRNSENS15** 

> None of the time......1 Some of the time ......2

#### **URINDAY15**

**URINIG15** 

#### For the next 3 questions, we are interested in your experience in the past year (12 months).

E9. <u>In the past year</u>, have you had other problems with urinating, such as incomplete emptying, a weak urinary stream, straining to begin urination, or difficulty in postponing urination? (CIRCLE ONE NUMBER.) <u>OURINPRB15</u>

				(GO TO E10)
a.	If YES	, how frequently have you had this problem?	OURINF	RQ15
		Every day		
		Few times a week		
		Few times a month		
		A few times a year	4	
E10. <u>In the pa</u> NUMBER.)	<u>ast year</u> ,	have you had any urinary tract infections (UTI, bladder	infections) <sup>(</sup> UTIYR15	
	No		1	(GO TO E11)
				(00000000)
a.		, <u>in the past year</u> , how many times has a health professi fection?	onal told y	ou that you had a urinary
		number of urinary tract infections	NUMUTI	<u>YR15</u>
E11. Now we of your	would lil bowels (	ke to know if you have experienced stool incontinence. <u>I</u> (stool incontinence or anal incontinence)? (CIRCLE ON)	n the past E NUMBE BMINC1	R.)
	No		1 ( <b>G</b>	O TO F1. PAGE 16)
a.	If YES	, how frequently have you had this problem? (CIRCLE	ONE NUM	IBER.)
			BMINCF	<u>RQ15</u>
		Every day	1	
		Few times a week		
		Few times a month		

A few times a year......4

#### These next questions ask about events that we sometimes experience in our lives.

F1. Since your last study visit, have you experienced any of the following: If you have not, circle 1 (NO). If you have, indicate how upsetting it was by circling 2, 3, 4 or 5. (PLEASE CIRCLE ONE ANSWER FOR EACH QUESTION.)

		NO	YES Not at all upsetting	YES Somewhat upsetting	YES Very upsetting	YES Very upsetting and still upsetting
a.	Started school, a training program, or new job? STARTNE15	1	2	3	4	5
b.	Had trouble with a boss or conditions at work got worse? WORKTRB15	1	2	3	4	5
c.	Quit, fired or laid off from a job? <b>QUITJOB15</b>	1	2	3	4	5
d.	Took on a greatly increased work load at job? WRKLOA15	1	2	3	4	5
e.	Husband/partner became unemployed? PRTUNEM15	1	2	3	4	5
f.	Major money problems? MONEYPR15	1	2	3	4	5

r.	Other major event not included above? MAJEVEN15	1	2	3	4	5
	Specify: SPECEVN15					

The next series of questions ask about your regular physical activities outside of your job: that is, other than the activities you do for pay.

We want to know about your activities at home, <u>not</u> including activities you may do for pay at your home or other people's homes. Please circle only one answer to each question.

During the past year (in the last 12 months), how much time did you spend on average....

G1. Caring for a child or children 5 years of age or less, a disabled child or an elderly person? Only count time actually spent doing physical activities like feeding, dressing, moving, playing or bathing. (If child turned 6 less than 6 months ago, consider him/her age 5 for the whole year.) (CIRCLE ONE NUMBER.)

U A	C	• • • •	<u>CARING15</u>
None or less t	han one hour per we	ek	1
At least 1 hou	r but less than 20 ho	ours per week	2
20 hours or m	ore per week	~	3

G2. During the past year (in the last 12 months), how much time did you spend preparing meals or cleaning up from meals? (CIRCLE ONE ANSWER.) MEALS15

1 hour or less per day1	
Between 1 and 2 hours per day2	2
More than 2 hours per day	

G3. **During the past year (in the last 12 months)**, how often did you do routine chores requiring light physical effort, such as dusting, laundry, changing linens, grocery shopping or other shopping? (CIRCLE ONE ANSWER.)

Once per week or less	1
More than once per week but less than daily	
Daily or more	

G4. **During the past year (in the last 12 months)**, how often did you do chores requiring moderate physical effort, such as vacuuming, washing floors, or gardening /yard work such as mowing the lawn or raking leaves? (CIRCLE ONE ANSWER.) <u>MODERAT15</u>

Once a month or less	1
2-3 times per month	2
4 or more times per month	3

G5. **During the past year (in the last 12 months)**, how often did you do chores at home requiring vigorous physical effort, such as chopping wood, tilling soil, shoveling snow, shampooing carpets, washing walls or windows, plumbing, tiling or outdoor painting? (CIRCLE ONE NUMBER.)

#### VIGOROU15

Once a month or less	1
2-3 times per month	2
4 or more times per month	3
1	

## **# Variable Excluded from Public Use Data File** Follow-up 15 Self-Administered Questionnaire Part A Codebook

#### Now we want to ask about the general level of physical activity involved in your daily routine.

In comparison with other women of your own age, do you think your recreational physical activity is...

G6.

(CIRCLE ONE NUMBER.)	PHYSACT15
Much less	1
Somewhat less	
The same	3
Somewhat more	4
Much more	5
During the past year, when you were not working or doing chores around the house	
G7. Did you watch television (CIRCLE ONE NUMBER.)	WATCHTV15
Never or less than 1 hour a week	1
At least 1 hour/week but less than 1 hour a day	
1-2 hours a day	
2-4 hours a day	4
More than 4 hours a day	
During the <u>past year</u>	
G8. Did you walk or bike to and from work, school or errands(CIRCLE ONE NUMBE	R.) WALKBIK15
Never or less than 5 minutes per day	1
5-15 minutes per day	
16-30 minutes per day	
31-45 minutes per day	
More than 45 minutes per day	
G9. Did you sweat from exertion(CIRCLE ONE NUMBER.)	SWEATPA15
Never or less than once a month	1

Follow-up 15 Self-Administered Questionnaire Part B Codebook

This questionnaire covers material that is sensitive and personal. For some women, sexual activity is an important part of their lives, but for others, it is not. Everyone has different ideas on this subject. To help us understand how these matters affect women's lives and health, we would like you to answer the following questions from your own personal viewpoint. There are no right or wrong answers. Remember, confidentiality is assured. While we hope you are willing to answer all of the questions, if there are questions you would prefer not to answer, you are free to skip them. Please find the most appropriate response to each question, and circle the number for the answer you choose.

B1.	How important	t is sex in your life? (C	CIRCLE ONE NU	MBER.)	IMPORSE15	
	1 Extremely important	2 Quite important	3 Moderately important	4 Not very important	5 Not at all important

d) Sexual intercourse? INTCOUR15	1	2	3	4	5

Please answer the following questions, B7 – B12, about sexual activity with your partner(s), your spouse or life companion.

B7.	During the last	6 months, how ofte	n did you feel aroused	during sexual activity?	AROUSED15
	1	2	3	4	5
	Always	Almost	Sometimes	Almost	Never
		always		never	

B8. During the past 6 months, have you felt vaginal or pelvic pain during intercourse? **PELVIC15** 1 2 3 4 5 6 Always Almost Sometimes Almost Never No Never intercourse in always last 6 months

B9. During the last 6 months, how often have you used lubricants, such as creams or jellies, to make sex more comfortable?

1	2	3	4	5	6
Always	Almost	Sometimes	Almost	Never	No
	always		Never		intercourse in
					last 6 months

B10. During the past 6 months, how often were you able to reach climax (come)? ABLECLM15

1	2	3	4	5
Always	Almost	Sometimes	Almost	Never
	always		never	

B11. During the past 6 months, how often were you satisfied with the frequency of sexual activity? 1 2 3 4 5 Always Almost Sometimes Almost Never

never

B12. During the past 6 months, how much has each of the following been a problem? (CIRCLE ONE ANSWER FOR EACH QUESTION.)

always

	In the past 6 months	Not at all				A great deal
a.	My partner has had a physical problem that interferes with sex. <b>PHYPPAR15</b>	1	2	3	4	5
b.	My partner is too tired or busy for sex. BUSYPAR15	1	2	3	4	5
c.	I am too tired or busy. TOTIRED15	1	2	3	4	5
d.	My partner is not interested in sex. NOINPAR15	1	2	3	4	5
e.	I am not interested in sex. INTRSNO15	1	2	3	4	5

#### CONTINUE ON THE NEXT PAGE, PLEASE.

The next questions are about the way health problems might interfere with your sex life. These questions are personal, but your answers are important in understanding how health problems affect people's lives.

B13. During the past 6 months, how much have you had concerns about the appearance of your body that interfered with your sex life? BODYAP15

1	2	3	4	5
Always	Almost always	Sometimes	Almost never	Never

B14. On average, in the last 6 months, how often have you engaged in masturbation (self-stimulation)?

				MASTURB15	
1	2	3	4	5	6
Not	Less than	Once or twice	About once	More than	Daily
at all	once a	a month	a week	once a	
	month			week	

### B15. How much of a problem was <u>each</u> of the following during the <u>past 4 weeks</u>? (CIRCLE ONE ANSWER FOR EACH QUESTION.)

		Not a problem	Little of a problem	Somewhat of a problem	Very much a problem	Not Applicable
a.	Lack of sexual interest SEXINTE15	1	2	3	4	-1
b.	Unable to relax and enjoy	1	2	3	4	-1
c.	sexually aroused	1	2	3	4	-1
d.	DIFAROU15 Difficulty in having an orgasm DIFORGS15	1	2	3	4	-1
B16. (	Over the past <u>4 weeks</u> , how s	atisfied have	you been with	n your overall sex	xual life? <u>S</u>	EXLIFE15
	1	2	3	4		5
	Very Mod	erately	About equall	y Moderat	tely	Very
	dissatisfied diss	atisfied	satisfied and dissatisfied		ed s	atisfied
	CONTINUE ON THE NEXT PAGE, PLEASE.					

B17. Regardless of whether you are currently sexually active, which response best describes who you have generally had sex with over your adult lifetime? (CIRCLE ONE.) WHOSEX15

Have never had sex	1
Sex with a woman	2
Sex with a man	3
Sex sometimes with a woman and sometimes with a man	4

#### B18. Do you consider yourself to be...? (CIRCLE ONE.)

CONSID15

Heterosexual or straight	1
Gay or lesbian	
Bisexual	3

#### Thank you for helping us with this important research study.

### IF NON-PARTICIPATING SITE (PITTSBURGH, NEW JERSEY OR MICHIGAN), SKIP SECTION B AND GO TO SECTION C.

#### B. REY AUDITORY VERBAL LEARNING TEST: WORD LIST RECALL

I have some questions that involve remembering things. Please try your best.

INTERVIEWER NOTE: RECORD ALL ANSWERS PROVIDED BY THE PARTICIPANT. ALL RESPONSES MUST BE GIVEN **WITHOUT** ANY AID TO MEMORY.

WORD LIST: THE GOAL IS TO RECALL WORDS FROM THE STUDIED LIST. SCORING:

- THE INTERVIEWER CHECKS OFF WORDS RECALLED FROM THE LIST ON THE SCRIPT; REPETITIONS CAN BE CHECKED TWICE, AND INTRUSIONS WRITTEN IN.
  - CREDIT IS GIVEN IF A NOUN IS MADE PLURAL (FARMERS INSTEAD OF FARMER).
  - AN INTRUSION ERROR IS A WORD THAT WAS CLEARLY NOT ON THE LIST (E.G. COWBOY INSTEAD OF FARMER).
  - PARTIAL WORDS ARE NOT CORRECT (E.G. FARM INSTEAD OF FARMER).
  - A REPETITION IS DEFINED AS A FAILURE OF SELF-MONITORING. SO IF SOMEONE SAYS DRUM, CURTAIN, BELL, DRUM, THEY ARE FAILING TO REMEMBER THEY ALREADY SAID DRUM.
  - SOMETIMES PEOPLE USE A THINKING-OUT-LOUD STRATEGY THAT IS NOT A FAILURE OF SELF-MONITORING: THEY MIGHT SAY "DRUM, CURTAIN, BELL...HMMM... DRUM, CURTAIN, BELL, HOUSE"... WHERE THEY ARE RUNNING THROUGH THE LIST AGAIN IN THEIR MINDS BUT ARE AWARE THAT THEY ALREADY SAID THOSE WORDS. OR THEY MIGHT SAY "DRUM, I ALREADY SAID DRUM", SO WE KNOW THAT THEY KNOW THEY ARE REPEATING. THESE SITUATIONS DO NOT COUNT AS REPETITIONS.
  - SOMETIMES WE WILL NEED TO DEPEND ON TONE OF VOICE: E.G. IF SOMEONE SAYS "DRUM, CURTAIN, BELL.... DID I SAY DRUM?" OR SOUNDS QUESTIONING. THE KEY ISSUE IS WHETHER THEY ARE AWARE THAT THEY HAVE SAID THE WORD ALREADY.

#### **REY AUDITORY VERBAL LEARNING TEST: WORD LIST RECALL**

"I am going to read a list of 15 words. Listen carefully. When I am finished, you are to repeat as many of the words as you can remember. It doesn't matter in what order you repeat them. Just try to remember as many as you can. I will say each word only one time, and I cannot repeat any words. You will have up to one and a half minutes, and I will not say anything until I tell you that your time is up. Do you have any questions? Are you ready?"

READ THE LIST BELOW WITH ONE SECOND INTERVAL BETWEEN EACH WORD. AFTER THE LIST OF WORDS IS READ ASK THE PARTICIPANT THE FOLLOWING:

"Now tell me as many words as you can remember."

If person stops before 90 seconds is up, say, "*There's still time left, can you think of any more*?" Ready? Begin (TIME FOR 90 SECONDS)

	Repeats word	Repetitions	Intrusions (write in word)
	(One check per box	(Check box each time word is	(Write in word(s) <u>no</u> t on the
	for first word recall.)	repeated <u>afte</u> r the first time)	word recall list.)

#### C. BACKWARD COUNTING FROM 100

THE GOAL IS TO SEE HOW FAR PARTICIPANTS CAN GET IN COUNTING BACK FROM 100 WITHOUT OMITTING ANY NUMBERS FROM THE PROPER SEQUENCE.

THE INTERVIEWER RECORDS THE LAST NUMBER REACHED, AND ALSO KEEPS TRACK OF THE NUMBER OF ERRORS.

IF A NUMBER IS OMITTED ENTIRELY, IT IS AN ERROR (99, 98, 96....). EACH NUMBER OMITTED COUNTS AS ONE ERROR. SO (99, 98, 95, 94...) WOULD BE 2 NUMBERS MISSED, 2 ERRORS.

OCCASIONALLY A PARTICIPANT WILL SKIP AN ENTIRE DECADE OF NUMBERS: E.G. GO FROM 91 TO 80. THIS COUNTS AS 10 ERRORS.

REPEATING THE SAME NUMBER ("99, 98, 97, 97, 96") IS ALSO SCORED AS AN ERROR.

"Now, I would like to see how fast you can count backwards. When I give the signal to begin, start counting backwards from 100 out loud, as fast as you can. So you will say 100, 99, 98 and so on. You will have 30 seconds. Do you have any questions? I will let you know when the time is up."

#### Ready? Begin (Time for 30 seconds)

Record final number reached \_\_\_\_\_, and number of errors \_\_\_\_\_ (Use grid to track errors.). Check box if Participant self-corrected

#### D. EAST BOSTON MEMORY TEST I

**# Variable Excluded from Public Use Data File** Follow-up 15 Cognitive Assessment Codebook I have some questions that involve remembering things and concentrating. Please try your best.

INTERVIEWER NOTE: RECORD ALL ANSWERS PROVIDED BY THE PARTICIPANT. ALL RESPONSES MUST BE GIVEN **WITHOUT** ANY AID TO MEMORY.

#### I. IMMEDIATE RECALL OF STORY

Now I would like to ask you to try to remember a short story.

First, I'm going to read you a short story and when I'm through, I'm going to wait a few seconds and then ask you to tell me as much as you can remember.

The story is:

Three children were alone at home and the house caught on fire. A brave fireman managed to climb in a back window and carry them to safety. Aside from minor cuts and bruises, all were well.

WAIT FIVE SECONDS, THEN SAY: Please tell me the story.

RECORD RESPONSE VERBATIM	SCORE EACI ABSENT	H IDEA AS	PRESENT OR

#### E. SYMBOL DIGIT MODALITIES TEST

Now, we are going to try something a little different.

PLACE THE LAMINATED TEST FORM IN FRONT OF RESPONDENT RESPONSES ON A BLANK SDMT FORM.

POINT TO KEY AT TOP OF PAGE AND SAY: Look at these boxes. Notice that each box has a little mark in the upper part and a number in the lower part. Each mark has its own number. Now look down here. [POINT]

Notice that the boxes on the top have marks, but the boxes on the bottom are empty. I want you to call out the number that goes with each mark. For example, look at the first mark and then look at the key. [POINT]

The number 1 goes with the first mark. So you call out the number 1 for the first box. POINT OUT NEXT 2 ANSWERS: A 5 goes with this mark, and a 2 goes with this mark.

Now what number belongs in the next box? POINT TO BOX IF NECESSARY. RECORD RESPONSE.

IF RESPONSE IS CORRECT, SAY: Good. You have the idea. IF RESPONSE IS INCORRECT, SAY: No, that is a 1. AND POINT TO THE APPROPRIATE SYMBOL/ITEM PAIR IN KEY.

Now, for practice, tell me the numbers that belong in the rest of the boxes up to this line. DRAW OVER THE DOUBLE LINE IN THE PRACTICE ROW. Use your finger as you move along the row so you don't get lost.

<u>RECORD RESPONSES</u> TO REMAINING PRACTICE ITEMS (ANSWERS: 3 6 2 4 1 6). IMMEDIATELY CORRECT EACH ERROR AS ABOVE. RECORD "0" FOR NON-NUMERIC RESPONSES.

REINSTRUCT AND/OR ENCOURAGE GUESSING IF RESPONDENT IS CONFUSED ON THE PRACTICE ROW; E.G., If you don't know, guess a number from 1 to 9, and I'll tell you if you're right or wrong.

#### AFTER PRACTICE ROW IS COMPLETED, SAY:

Good, you know how to do them. I have some more of these I want you to do. When I tell you to begin start here [POINT TO THE FIRST SQUARE TO RIGHT OF DOUBLE LINE] and call out the numbers just like you have been doing until I say 'Stop.' If you make a mistake, tell me what you think the correct answer is. Do not skip any boxes and work as quickly as you can. Ready? Begin.

START TIMER AT "BEGIN," ALLOW 90 SECONDS, AND THEN SAY: Stop. <u>RECORD RESPONSES</u>. DO NOT REINSTRUCT FURTHER; IF PRESSED, SAY: Just do the best you can.

### SYMBOL DIGIT MODALITIES TEST (CONTINUED) – SCORING:

1.	Admin	istra	ation status (1, 6-10)	SDMTSTA15	
	1	=	Test administered		
	6	=	Not administered because of physic	cal impairment	
	7	=	Not administered because of verba	l refusal	
	8	=	Not administered because of a beh	avioral reason	
	9	=	Not administered for some other re	ason	
			Specify	SDMTSPE15	
	10	=	Administered but not according to p	protocol	
			Specify		
2.	Numb	er o	f Test Administrations	SDMTADM15	
3.	Numb	er o	f Practice Items Correct (0-7)	SDMTPRA15	
4.	Numb	er o	f Test Items Attempted (0-110)	SDMTATM15	<u> </u>
5.	Numb	er o	f Test Items Correct (0-110)	SDMTCOR15	

### F. DIGITS BACKWARD

<u>ADMINISTRATION:</u> MAKE SURE YOU HAVE RESPONDENT'S ATTENTION BEFORE PRESENTING EACH ITEM. READ DIGITS CLEARLY AT ONE-PER-SECOND RATE, LETTING VOICE PITCH DROP/RISE ON LAST DIGIT. PRESENT EACH ITEM ONLY ONCE. IF REPETITION IS REQUESTED, SAY: Just tell me what you can remember.

DISCONTINUE AFTER TWO CONSECUTIVE ERRORS <u>AT A GIVEN ITEM LENGTH</u> (e.g., IF BOTH 4a AND 4b ARE ERRORS). IF REQUESTED, REINSTRUCT: After I say the numbers, you are to say them backwards.

IF RESPONDENT REPEATS THE NUMBERS FORWARD, SCORE THE RESPONSE AS AN ERROR (0) AND REINSTRUCT AS ABOVE. ONLY ONE UNREQUESTED REINSTRUCTION IS PERMITTED.

<u>SCORING:</u> CLASSIFY EACH RESPONSE AS ERROR (0) OR CORRECT (1) AND ENTER THE SCORE IN THE SPACE PROVIDED. FOR ITEMS NOT ADMINISTERED DUE TO BRANCHING OR DISCONTINUATION RULE, PLACE AN "-1" IN THE SPACE PROVIDED; FOR ITEMS NOT ADMINISTERED FOR ANY OTHER REASON, ENTER THE APPROPRIATE CODE: 6 = PHYSICAL IMPAIRMENT; 7 = VERBAL REFUSAL; 8 = BEHAVIORAL REASON; 9 = OTHER REASON;10 = ADMINISTERED BUT NOT ACCORDING TO PROTOCOL.

<u>INSTRUCTION:</u> Now, let's move on to another part. I am going to say some numbers. When I stop, I want you to say them backwards.

### **ITEM**

### Response Code

P1. Try this one : 2 - 8 - 3.

IF <u>CORRECT</u> (1), SAY: That's right. Now I have some more numbers. Remember, you are to say them backwards.

[GO TO 1a]

IF <u>ERROR</u> (0), SAY: No, I said 2 - 8 - 3, so to say them backwards, you would need to say 3 - 8 - 2.

[GO TO P2]

P2. Try this one. Remember, you are to say them backwards. Ready? 1 - 5 - 8.

IF <u>CORRECT</u> (1), SAY: That's right. Now I have some more numbers. Remember, you are to say them backwards.

[GO TO 1a]

IF <u>ERROR</u> (0), SAY: No, I said 1 - 5 - 8, so to say them backwards, you would need to say 8 - 5 - 1. Now I have some more numbers. Remember, you are to say them backwards.

### EACH IDEA AS DRESENT OR SCUDE

IF NON-PARTICIPATING SITE (PITTSBURGH OR MICHIGAN), SKIP SECTION H AND GO TO SECTION I.

### H. LETTER NUMBER SEQUENCING

FOR THIS SUBTEST, THE PARTICIPANT IS READ A COMBINATION OF NUMBERS AND LETTERS AND IS ASKED TO RECALL THE NUMBERS FIRST IN ASCENDING ORDER AND THEN THE LETTERS IN ALPHABETICAL ORDER. EACH ITEM CONSISTS OF THREE TRIALS, AND EACH TRIAL IS A DIFFERENT COMBINATION OF NUMBERS AND LETTERS.

Note: The participant is given <u>full credit</u> if all the letters and numbers are recalled in the correct sequence, even if the letters are recalled before the numbers

COMPLETE PRACTICE ITEMS AND THEN START WITH ITEM 1.

DISCONTINUE AFTER SCORES OF 0 ON ALL THREE TRIALS OF AN ITEM.

GENERAL DIRECTIONS: ADMINISTER ALL PRACTICE TRIALS. FOR EACH PRACTICE ITEM AND TRIAL ITEM. SAY EACH COMBINATION AT A RATE OF ONE NUMBER OR LETTER PER SECOND. ALLOW THE PARTICIPANT AMPLE TIME TO RESPOND (CORRECT RESPONSES ARE IN PARENTHESIS).

IF THE PARTICIPANT MAKES AN ERROR ON ANY PRACTICE ITEM. CORRECT HER AND REPEAT THE INSTRUCTIONS AS NECESSARY. EVEN IF THE PARTICIPANT FAILS ALL PRACTICE ITEMS. CONTINUE WITH THE SUBTEST.

SCORING: CLASSIFY EACH RESPONSE AS ERROR (0) OR CORRECT (1) AND ENTER THE SCORE IN THE SPACE PROVIDED. FOR ITEMS NOT ADMINISTERED FOR ANY REASON, ENTER THE APPROPRIATE CODE: 6 = PHYSICAL IMPAIRMENT; 7 = VERBAL REFUSAL; 8 = BEHAVIORAL REASON; 9 = OTHER REASON; 10 = ADMINISTERED BUT NOT ACCORDING TO PROTOCOL.

"I am going to say a group of number and letters. After I say them, I want you to tell me Practice Test: the numbers first, in order, starting with the lowest number. Then tell me the letters in alphabetical order. For example, if I say B-7, your answer should be 7-B. The number goes first, then the letter. If I say 9-C-3, then your answer should be 3-9-C, the numbers in order first, then the letters in alphabetical order, Let's practice."

**Response Code** 6-F (6-F) [IF  $\underline{\text{CORRECT}}(1)$ ; IF  $\underline{\text{ERROR}}(0)$ ] **G-4** (4-G) [IF  $\underline{\text{CORRECT}}(1)$ ; IF  $\underline{\text{ERROR}}(0)$ ] 3-W-5 (3-5-W) [IF  $\underline{\text{CORRECT}}(1)$ ; IF  $\underline{\text{ERROR}}(0)$ ] T-7-L (7-L-T)  $[IF \underline{CORRECT}(1); IF \underline{ERROR}(0)]$ 1-J-A (1-A-J) [IF  $\underline{\text{CORRECT}}(1)$ ; IF  $\underline{\text{ERROR}}(0)$ ] "Very good. Do you have any questions?"

ITEM

**LETTER NUMBER SEQUENCING (CONTINUED)** [READ ALL SEQUENCES FROM BELOW AT THE RATE OF ONE NUMBER OR LETTER PER SECOND. AND RECORD THE SCORE IN SPACE PROVIDED.]

### [NOTE: DISCONTINUE IF THE PARTICIPANT MISSES ALL 3 SEQUENCES OF A LEVEL.]

### LETTER NUMBER SEQUENCING (CONTINUED)

### SCORING

- RECORD THE PARTICIPANT'S RESPONSE TO EACH TRIAL **VERBATIM**, THE TRIAL SCORE, THE ITEM SCORE AND THE TOTAL SUBSET RAW SCORE.
- FOR EACH TRIAL OF AN ITEM, SCORE 1 POINT FOR EACH CORRECT RESPONSE, 0
  POINTS FOR EACH INCORRECT RESPONSE. A RESPONSE IS INCORRECT IF A
  NUMBER OR LETTER IS OMITTED OR IF THE NUMBERS OR LETTERS ARE NOT SAID
  IN SPECIFIED SEQUENCE. AS LONG AS THE NUMBERS AND LETTERS ARE
  RECALLED IN SEQUENCE, GIVE CREDIT IF THE PARTICIPANT GIVES THE LETTERS IN
  SEQUENCE BEFORE THE NUMBERS. SUM THE TOTAL SCORE TO OBTAIN THE ITEM
  SCORES; SUM THE ITEM SCORES TO OBTAIN THE TOTAL SCORE.
- EACH ITEM IS SCORED 3,2,1, OR 0 POINTS AS FOLLOWS (MAXIMUM SCORE = 21 POINTS IN FORM VERSION 02/02/2015; MAXIMUM SCORE = 24 IN FORM VERSION 05/15/2017):

3 POINTS IF THE PARTICIPANT PASSES ALL THREE TRIALS 2 POINTS IF THE PARTICIPANT PASSES TWO TRIALS 1 POINT IF THE PARTICIPANT PASSES ONLY ONE TRIAL 0 POINTS IF THE EXAMINEE FAILS ALL THREE TRIALS

	Passes all 3 trials	Passes 2 trials	Passes 1 trial	Fails all 3 trials
Item 1	3	2	1	0
Item 2	3	2	1	0
Item 3	3	2	1	0
Item 4	3	2	1	0
Item 5	3	2	1	0
Item 6	3	2	1	0
Item 7	3	2	1	0
Item 8	3	2	1	0

If no trials were administered Total score is not applicable "-1".

8. Add the number of passes circled for Items 1 to 7 and record the total score. (Form version 02/02/2015)

Total score (0 to 21) \_\_\_\_\_ LNSQTOT15

9. Add the number of passes circled for Items 1 to 8 and record the total score. (Form version 05/15/2017)

Total score (0 to 24) \_\_\_\_\_ LNSQTOT15

# IF NON-PARTICIPATING SITE (PITTSBURGH, NEW JERSEY OR MICHIGAN), SKIP SECTION I AND GO TO SECTION J.

### I. REY AUDITORY VERBAL LEARNING TEST: SHORT DELAY WORD RECALL

"Good now one more question. Do you remember the very first list of 15 words that I read to you in the beginning? It was the very first thing we did. (WAIT FOR PARTICIPANT TO RESPOND "YES.") I want you to tell me as many of the words from that list as you can. You will have up to one minute. I will tell you when your time is up."

RECORD WORDS RECALLED, INCLUDING INTRUSIONS AND REPETITIONS. IF PERSON STOPS BEFORE ONE MINUTE IS UP, SAY, "There is still more time can you think of any more?

"Now tell me as many words as you can remember." Ready? Begin (TIME FOR 60 SECONDS)

	Repeats word (One check per box	Repetitions (Check box each time work is	Intrusions (write in word) (Write in words not on the
	for first word recall.)	repeated after the first time)	word recall list.)

### SECTION B. BIOIMPEDANCE MEASUREMENT

Now I would like to measure your body composition using this bioimpedance equipment. Body composition is the amount of body fluids, fat, and lean body mass, including your muscles and organs found in your body.

B1. Do you have an insulin pump, pacemaker or automatic implantable cardiac defibrillator (AICD)? AICDPUM15

NO1	
YES	(A9)
DON'T KNOW8	(A9)

IF YES OR DON'T KNOW, **STOP**. SUBJECT INELIGIBLE FOR BIOIMPEDANCE. CODE Q.A9 AS "NO=1" AND Q.A9.1 AS "REASON=4."

If you have not recently done so, I would like you to use the bathroom before we take this measurement. For this measurement, you will need to remove metal jewelry and your right sock and shoe. Two sticky pads called electrodes will be placed on your right hand at the wrist and knuckles and two more will be placed on your right foot at the toes and ankle. Once the electrodes are attached, it will take less than one minute for the equipment to measure your body composition.

Before we begin the bioimpedance measurement I need to ask you a few questions that will help us interpret the results.

B2. Have you exercised intensely for at least half an hour or taken a sauna within the last 12 hours? That is, since \_\_\_\_: \_\_\_\_ a.m. / p.m.? EXER12H15

NO	1
YES	2
REFUSED	_

B3. Have you had anything to eat or drink, apart from water, in the last 5 hours? That is, since \_\_\_\_: \_\_\_\_ a.m. / p.m.?

### EAT5HR15

ALCO24H15

NO	1
YES	2
REFUSED	7

B4. Have you had more than 2 alcohol drinks in the last 24 hours? That is, since \_\_\_\_: \_\_\_ a.m. / p.m.?

NO	1
YES	2
REFUSED	

B5. Do you have any embedded medical devices, metal pins or plates, clips or beads used to treat cancer, braces, staples from surgery or any other type of embedded metal? **EMBDDEV15** 

NO	1
YES	2
DON'T KNOW	

Please remove all metal jewelry. Although you won't feel anything, metal removal is encouraged for more accurate results. Now please remove your right shoe and sock before lying down on a table for the test. <u>METJEWL15</u>

B6. DID PARTICIPANT WEAR ANY METAL JEWELRY DURING MEASUREMENT?

- B6.1. IF YES, WERE THERE ANY RINGS, BRACELETS, WATCHES OR ANKLE JEWELRY ON THE <u>MEASURED</u> SIDE? <u>ONMEASS15</u>

LEGS SHOULD BE FAR ENOUGH APART SO THAT THE THIGHS DO NOT TOUCH. HANDS AND ARMS SHOULD BE FAR ENOUGH APART SO THAT THE HANDS AND ARMS DON'T TOUCH THE TORSO.

IF THE SKIN IS OILY, CLEAN IT WITH AN ALCOHOL SWAB BEFORE ATTACHING ELECTRODES.

IF THE SKIN IS DRY, APPLY A SMALL AMOUNT OF ECG OR CONDUCTIVE PASTE BEFORE ATTACHING ELECTRODES.

B7. ON WHICH SIDE OF THE BODY WERE THE ELECTRODES PLACED? <u>SIDE15</u>

RIGHT.....1 LEFT......2

THE **VALID RANGE** FOR THE CONDUCTANCE VALUE IS **-800 TO 800 OHMS**. THE VALID RANGE FOR THE REACTANCE VALUE IS **-150 TO 150 OHMS**. IF AN *'OUT OF RANGE'* CONDUCTANCE OR REACTANCE OR *NEGATIVE* CONDUCTANCE VALUE IS DETECTED PLEASE SEE INSTRUCTIONS ON THE NEXT PAGE.

B8. RECORD THE CONDUCTANCE / RESISTANCE VALUE THAT APPEARS ON THE IMPEDANCE METER:

( + OR - ) \_\_\_\_\_ OHMS <u>CONDUCT15</u>

B9. RECORD THE REACTANCE / IMPEDANCE VALUE THAT APPEARS ON THE IMPEDANCE METER:

( + OR - ) \_\_\_\_\_ OHMS <u>**REACT15**</u>

**B10. WAS THE MEASUREMENT RE-RUN?** 

**BIORRUN15** 

NO ......1 

### B11. COMMENTS: \_\_\_\_\_\_ #OPERCO115

#OPERCO215

### REMOVE AND DISPOSE OF THE ELECTRODES, BE SURE NOT TO INJURE THE SUBJECT'S SKIN. IF YOU HAVEN'T ALREADY DONE SO, COMPLETE QUESTION A10 = "YES (2)."

Thank you for your participation in this study.

IF AN 'OUT OF RANGE' CONDUCTANCE OR REACTANCE IS DETECTED, IMMEDIATELY CHECK THE QUALITY OF THE ATTACHMENT OF THE ALLIGATOR CLAMPS AND THE SECURITY OF THE ELECTRODES TO THE SKIN. THEN, RE-DO THE PROCEDURE.

IF THE SECOND MEASUREMENT FALLS WITHIN THE VALID RANGE, IT SHOULD BE ENTERED INTO THE FIELD FOR Q.B8 OR Q.B9. THE INITIAL MEASUREMENT SHOULD BE RECORDED IN THE COMMENTS (Q.B11) AND Q.B10 SHOULD BE CODED "2=YES" RE-RUN.

IF THE SECOND ATTEMPT ALSO RESULTS IN AN INVALID RANGE, THEN VALIDATE WITH 500 OHM RESISTOR AND RE-RUN A THIRD ATTEMPT. IF THE THIRD MEASUREMENT FALLS WITHIN THE VALID RANGE, IT SHOULD BE ENTERED INTO THE FIELD FOR Q.B8 OR Q.B9. IF THIRD ATTEMPT VALUES ARE STILL INVALID, CODE "-2222" INSTEAD OF OUT OF RANGE VALUE. THE INITIAL AND SECOND MEASURMENTS SHOULD BE RECORDED IN THE COMMENTS (O.B11) AND O.B10 SHOULD BE CODED "2=YES" RE-RUN.

THE ABOVE PROCEDURES SHOULD ALSO BE FOLLOWED IF A VALID BUT NEGATIVE VALUE (BETWEEN -1 AND -800) IS DETECTED FOR CONDUCTANCE (Q.B8). IF THE SECOND OR THIRD CONDUCTANCE MEASUREMENT RESULTS IN A POSITIVE VALUE, IT SHOULD BE ENTERED INTO Q.B8 AND THE INITIAL MEASUREMENT(S) SHOULD BE RECORDED IN THE COMMENTS (Q.B11) AND Q.B10 SHOULD BE CODED "2=YES" RE-RUN. IF ALL THREE MEASUREMENTS RESULT IN A NEGATIVE VALUE. THEN THE FINAL VALID MEASUREMENT (BETWEEN -1 AND -800) SHOULD BE ENTERED INTO Q.B8.

I would now like you to try to move your body in different movements. I will first describe and show each movement to you. Then I'd like you to try to do it. If you cannot do a particular movement, or if you feel it would be unsafe to try to do it, tell me and we'll move on to the next one. Let me emphasize that I do not want you to try to do any exercise that you feel might be unsafe. Any questions before we begin?

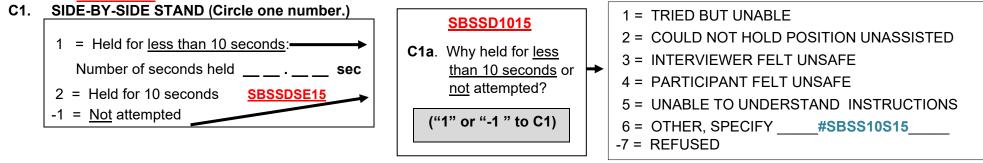

### BALANCE TESTING:

The participant must be able to stand <u>unassisted</u> without the use of a cane or walker. You may help the participant to get up. Stand next to the participant to help her into the position. Supply just enough support to the participant's arm to prevent loss of balance. When the participant is in position (and secure), let go before you begin timing.

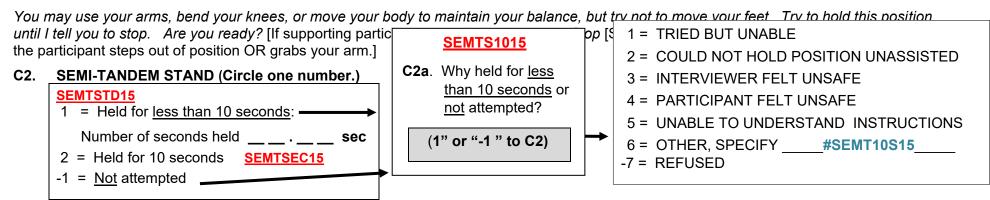

Now I will show you the first movement. [Demonstrate.] I want you to try to stand with your feet together, side-by-side, for about 10 seconds.

You may use your arms, bend your knees, or move your body to maintain your balance, but try not to move your feet. Try to hold this position until I tell you to stop. Are you ready? [If supporting participant, let go.] Ready, begin. Stop [Stop the stopwatch after 10 seconds OR when the participant steps out of position OR grabs your arm.]

### SBSSTND15

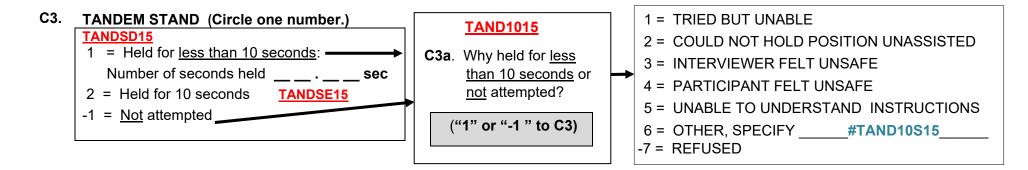

IF PARTICIPANT IS <u>UNABLE</u> TO HOLD THE POSITION FOR <u>10 SECONDS</u> ("1" to C1) GO TO C4, PAGE 5. IF THE MEASURE WAS <u>NOT</u> ATTEMPTED ("-1" TO C1), GO TO D1, PAGE 5 (TIMED 4 METER WALK), OTHERWISE GO TO C2, PAGE 4. Now I will show you the second movement. [Demonstrate.] I want you to try to stand with the heel of one foot touching the big toe of the other foot, for about 10 seconds. You may put either foot in front, whichever is more comfortable for you.

### IF PARTICIPANT IS <u>UNABLE</u> TO HOLD THE POSITION FOR <u>10 SECONDS</u> ("1" to C2) OR IF THE MEASURE WAS <u>NOT</u> ATTEMPTED ("-1" TO C2) GO TO C4 ON PAGE 5, OTHERWISE GO TO C3.

Now I will show you the third movement. [Demonstrate.] I want you to try to stand with the heel of one foot in front of and touching the toes of the other foot, for about 10 seconds. You may put either foot in front, whichever is more comfortable for you.

You may use your arms, bend your knees, or move your body to maintain your balance, but try not to move your feet. Try to hold this position until I tell you to stop. Are you ready? [If supporting participant, let go] Ready, begin. Stop [Stop the stopwatch after 10 seconds OR when the participant steps out of position OR grabs your arm.]

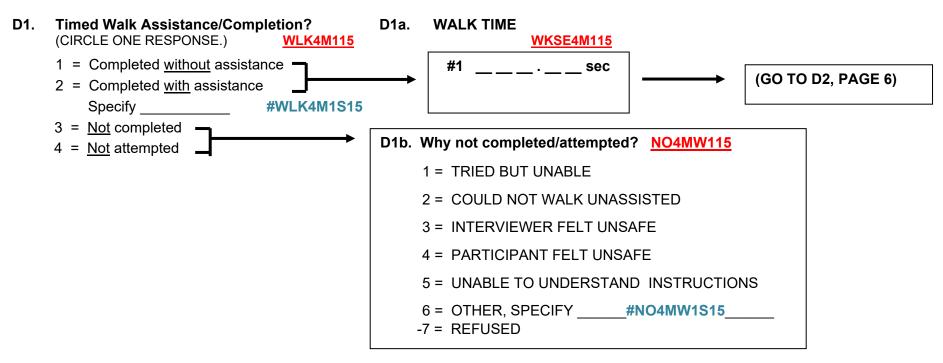

### C4. WHAT TYPE OF WALKING SURFACE? (CIRCLE ONE RESPONSE.) C5. WHAT TYPE OF FOOT COVERING? (CIRCLE ONE RESPONSE.)

1 =	Linoleum surface	STDSUR15	1 =	Regular socks	STDCOV15
2 =	Wood surface		2 =	Non-skid socks	
3 =	Commercial low-level nap carpet		3 =	Bare feet	
4 =	Concrete or cement surface		4 =	Flat walking/running shoes	
5 =	Other type surface, Specify	#STDSURS15	5 =	Other foot covering, Specify	#STDCOVS15

### GAIT SPEED: TIMED 4 METER WALK ASSESSMENT

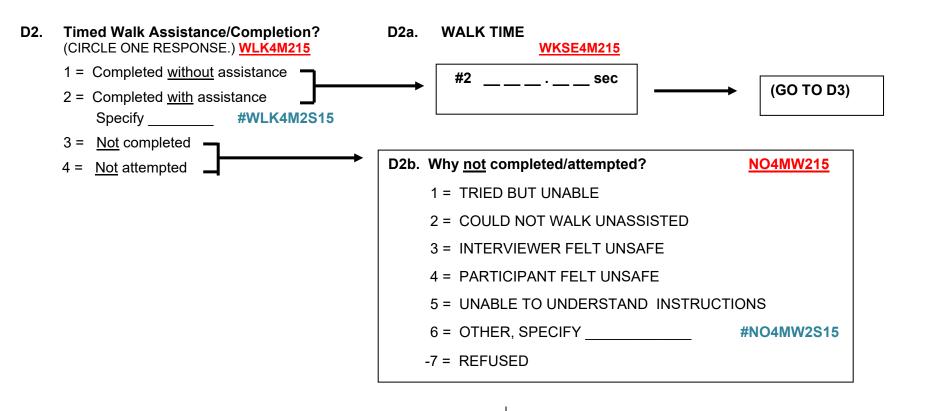

Now I am going to observe how you normally walk. If you use a cane or other walking aid and you feel you need it to walk a short distance, then you may use it. You will be asked to complete this walk 2 times.

This is our walking course. I want you to walk to the other end of the course at your usual speed, just as if you were walking down the street to the store. [Demonstrate.] Walk all the way past the other end of the tape before you stop. I will walk with you. Do you feel this would be safe? [If participant feels safe, have her stand with both feet touching the starting line.] Ready, begin.

### PROCEED TO THE NEXT PAGE TO COMPLETE THE SECOND TIMED WALK.

Now I want you to repeat the walk. Remember to walk at your usual pace, and go all the way past the other end of the tape.

### D3. WHAT TYPE OF WALKING SURFACE? (CIRCLE ONE RESPONSE.) D4. WHAT TYPE OF FOOT COVERING? (CIRCLE ONE RESPONSE.)

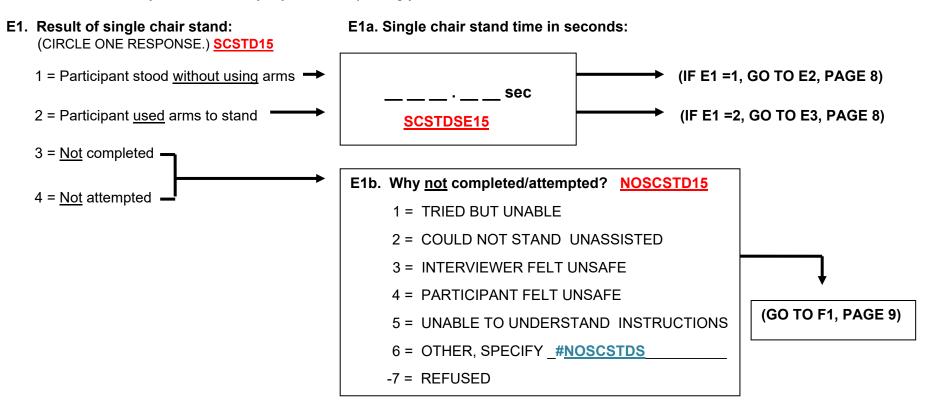

1 =	Linoleum surface	<u>WSUR4M15</u>	1 =	Regular socks	<u>W4MCOV15</u>
2 =	Wood surface		2 =	Non-skid socks	
3 =	Commercial low-level nap carpet		3 =	Bare feet	
4 =	Concrete or cement surface		4 =	Flat walking/running shoes	
5 =	Other type surface, Specify	#WSUR4MS15	5 =	Other foot covering, Specify	#W4MCOVS15

### SIT-TO-STAND ASSESSMENTS

The next test measures the strength in your legs. Ask participant if she thinks it would be safe for her to stand up from a chair without using her arms. If "NO" ask if she thinks it would be safe for her to stand up from a chair using her arms. [If participant does not feel safe with either option she will be <u>unable to complete</u> any of the sit-to-stand assessments. Circle "<u>Not</u> attempted" in E1 and circle reason in E1b.]

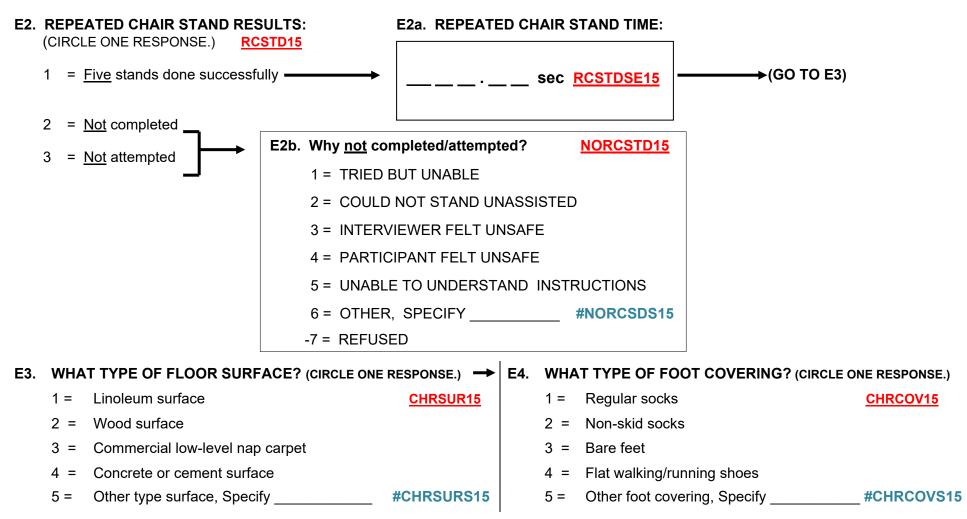

### SINGLE CHAIR STAND:

[Demonstrate and explain the procedure.] *First, fold your arms across your chest and sit so that your feet are on the floor; then stand up keeping your arms folded across your chest. Please stand up keeping your arms folded across your chest. When fully upright <u>drop your hands to your sides</u>. [If Participant cannot rise without using arms, ask her to stand using arms on chair or thighs to assist.] <i>This test will be timed. Wait until I tell you to start. Okay, try to stand up using your arms.* 

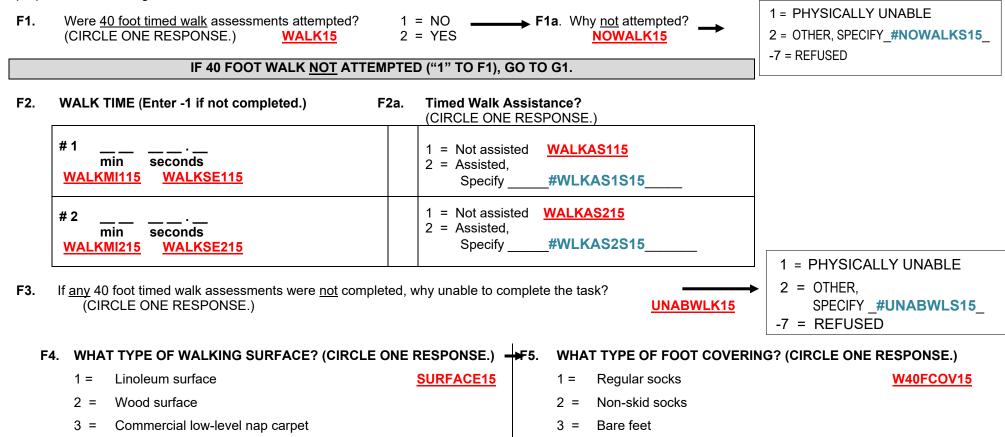

### **REPEATED CHAIR STAND:**

Ask participant if she thinks it would be safe for her to stand up from a chair 5 times without using her arms. [If participant does not feel safe she will be <u>unable to complete</u> the repeated chair stand. Circle "<u>Not</u> attempted" in E2 and circle reason in E2b.] [Demonstrate and explain the procedure.] *Please stand up straight as <u>quickly</u> as you can five times without stopping in between. After standing up each time, sit down and then stand up again. Keep your arms folded across your chest. Do <u>not</u> drop your hands to your sides. I'll be timing you with a stopwatch. [When Participant is properly seated begin timing.] <i>Ready? Stand.* [Count out loud as the participant arises each time, up to five times.]

### IF NON-PARTICIPATING SITE (NEW JERSEY OR LOS ANGELES), SKIP F1 – F5 AND GO TO G1.

TIMED 40 FOOT WALK ASSESSMENT (OPTIONAL) Instruct the participant to walk in a comfortable but steady, brisk pace as in the manner of showing purpose, but not being late.

- 4 = Concrete or cement surface
- 5 = Other type surface, Specify \_\_\_\_\_ #SURFACS15 5 = Other foot covering, Specify \_\_\_\_\_ #W40FCVS15

4 =

Flat walking/running shoes

### IF NON-PARTICIPATING SITE (BOSTON), SKIP G1 – G6 AND GO TO H1. TIMED STAIR CLIMB ASSESSMENT

This assessment is our timed stair climb. I would like you to walk up and down the stairs three times without stopping. Once you go up the stairs, allow both feet to land on the top stair before returning back down. I will count each complete up and down cycle until you finish three full cycles. Although the measurement is being timed, please use the same pace you typically would when walking any set of stairs. You may use the rails for support or balance, if needed. Please start with your toes on the line. Ready and begin.

G1.	Was the timed stair climb assessment attempted?	1 = NO $\longrightarrow$ <b>G1a.</b> Why not attempted?	1 = PHYSICALLY UNABLE 2 = OTHER.
	STRCLM15	NOSTR15	SPECIFY <u>#NOSTRS15</u>
		2 = YES	-7 = REFUSED
			(GOTO H1)

**STAIR CLIMB SPLIT TIMES** For G2a and G2c, record the split time (in seconds) for each ascent and descent if the cycle was completed. For G2a and G2d, record whether the participant used the handrail for that ascent or descent. If the ascents and descents were completed but the interviewer is unable to provide the times, please enter the time as -8.

G2	CYCLE COMPLETED?	ASCEN	Т	DESCENT				
		G2a. TIME	G2b. HANDRAIL?	G2c. TIME	G2d. HANDRAIL?

  - 5 = UNABLE TO UNDERSTAND INSTRUCTIONS
  - 6 = OTHER, SPECIFY <u>#NO3CYCS15</u>
  - -7 = REFUSED

### G5. ASK PARTICIPANT:

Please rate your perception of exertion during the stair climb. This feeling should reflect how the exercise felt to you, combining all sensations and feelings of physical stress, effort, and fatigue. **[HAND RESPONDENT RESPONSE CARD "V" ]** 

Look at the rating scale on the card; it ranges from 6 to 20, where 6 means "no exertion at all" and 20 means "maximal exertion". Choose the number that best describes your level of exertion. **EXRTION15** 

6 7 8 9 10 11 12 13 14 15 16 17 18 19	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	)

### SECTION B: EVERYDAY COGNITION

Please rate your ability to perform certain everyday tasks **NOW**, <u>as compared to your ability to do these same</u> <u>tasks 10 years ago</u>. In other words, try to remember how you were doing 10 years ago and indicate any change in your level of ability. Rate the amount of change on a five-point scale ranging from: 1) better or there has been no change in my ability compared to 10 years ago, 2) I occasionally perform the task worse but not all of the time, 3) I consistently perform the task a little worse than 10 years ago, 4) I perform the task much worse than 10 years ago, or -8) I don't know. (CIRCLE THE NUMBER THAT FITS YOUR RESPONSE.)

### **SECTION C: WHODAS 2.0**

The next questions ask about <u>difficulties due to health conditions</u>. Health conditions include diseases or illnesses, other health problems that may be short or long lasting, injuries, mental or emotional problems, and problems with alcohol or drugs.

Think back over the <u>past 30 days</u> and answer these questions, thinking about how much difficulty you had doing the following activities. For each question, please circle only one response.

	e <u>past 30 days</u> now much <u>difficulty</u> di ng around		None	Mild	Moderate	Severe	Extreme or cannot do

### SECTION B: 10 GRAM MONOFILAMENT TESTING: FOUR (4) ATTEMPTS ON EACH FOOT

This assessment will test the sensation or sense of touch on your feet. To do this test, I will use this small filament to apply pressure to your great toe. It is not sharp. I will now touch the filament to your inner wrist so you know what to expect. [APPLY THE MONOFILAMENT TO THE PARTICIPANT'S INNER WRIST ONE TIME SO THAT THE PARTICIPANT KNOWS WHAT TO EXPECT.]

*Now, please close your eyes and respond with a 'Yes' each time you feel the filament touch your toe. Do you understand?* 

B1.	Was the <b><u>RIGHT</u></b> foot tested with the 10 gram monofilament?	<u>RT10GM15</u>
	NO YES B1a. Why was the <u>RIGHT</u> foot not tested? Ulcer or open sore on foot Foot amputated Recent trauma or surgery on foot Other, specify#NOR10GMS15

### ADDITIONAL MEASURES COLLECTED

The following answers pertain to the serum hormone and cardiovascular measures:

- NO	
YES THE FOLLOWING ONLY APPLY IF BLOOD WAS DRAWN.	
Before we draw a blood sample I need to ask you a few questions.	
A10. Have you had anything to eat or drink, other than water, in the last 12 hour since: last night ?	rs? That is, EATDRIN15
NO YES	
A11. BLOOD DRAW CATEGORY:	BLDRWAT15
BLOOD DRAWN, PER PROTOCOL BLOOD DRAWN, LAST ATTEMPT	

### FOLLOW BLOOD DRAW PROTOCOL RECORD COLLECTION TUBES FILLED ON SPECIMEN COLLECTION FORM IF NOT ALREADY DONE, COMPLETE QUESTION A9 = "YES (2)"

In order to interpret your blood draw results, we need to ask you the following question.

A12. Have you had any alcohol in the last 24 hours?

### ALCHL2413

NO	 	1
YES	 	2

### SERUM HORMONE MEASURES

### 1. Variables for assays

Variable	Assay	Units
DHAS15	Dehydroepiandrosterone sulfate	ug/dL
E2AVE15*	Estradiol (see important note below)	pg/mL
<u>FSH15</u>	Follicle-stimulating hormone	mIU/mL
SHBG15	Sex hormone-binding globulin	nM
<u>T15</u> **	Testosterone	ng/dL

\* IMPORTANT NOTE: There were originally two estradiol result variables because estradiol was run in duplicate. E2AVE2 is the within-person arithmetic average of the two estradiol variables.

\*\* Testosterone and estradiol were collected, but are undergoing a lab calibration study. This data will be available once this study is completed.

### Flags and other variables

Variable	Meaning	Codes
HRMDAY15	Hormone measures day, given in days since the initial baseline interview, which is day zero.	
FLGCV15	Both Estradiol results are > 20 pg/mL and the within-subject coefficient of variation (CV) is > 15%.	0=no, 1=yes
FLGDIF15	One or both Estradiol results $\leq$ 20 pg/mL and the difference between them is > 10 pg/mL.	
	Note: Differences were found between some of the Estradiol duplicate measurements. The following guidelines were decided upon:	
	If both E2 values>20 pg/ml, CV must be $\leq$ 15%.	
	If one or both E2≤20 pg/ml, the two E2 results must agree within 10 pg/ml.	
	DATA WITH THESE FLAGS SHOULD BE OMITTED FROM DATA ANALYSES, OR USED WITH CAUTION IF INCLUDED IN ANALYSES.	

\*1=yes means flagged

### 2. Changes to the data:

- Lower limit of detection (LLD). Hormone results below the LLD were recoded to a value of '.L'.
- LLDs changed over time. The following LLDs were provided by the lab and apply to all samples through 2009:

Hormone	Time Window on hormone measurement corresponding to LLD	Lower Limit of Detection
DHEAS	~ Sep. 15, 1997	<1.52 ug/dL (Initial value)
	Sep. 16, 1997 ~ Jan. 14, 1999	<0.304 ug/dL
	Jan. 15, 1999 ~	<1.5 ug/dL
E2	~ Feb. 20, 2000	<1.0 pg/mL (Initial value)
	Feb. 21, 2000 ~ Aug. 27, 2001	<2.0 pg/mL
	Aug. 28, 2001 ~ May 03, 2009	<4.0 pg/mL
	May 04, 2009 ~	<7.0 pg/mL
FSH	~ Aug. 05, 1999	<1.05 mIU/mL (Initial value)
	Aug. 06, 1999 ~ Nov. 10, 1999	<1.0 mIU/mL
	Nov. 11, 1999 ~ Jul. 19, 2000	<0.7 mIU/mL
	Jul. 20, 2000 ~ Oct. 29, 2002	<0.6 mIU/mL
	Oct. 30, 2002 ~ Sep. 28, 2003	<0.5 mIU/mL
	Sep. 29, 2003 ~ Feb 20, 2006	<0.4 mIU/mL
	Feb 21, 2006 ~	<0.8 mIU/mL
SHBG	~ Aug. 05, 1999	<1.95 nM (Initial value)
	Aug. 06, 1999 ~ Oct. 31, 1999	<1.9 nM
	Nov. 01, 1999 ~ Mar. 22, 2006	<2.0 nM
	Mar. 23, 2006 ~	<3.2 nM
Т	~ Jun. 04, 1998	<2.19 ng/dL (Initial value)
	Jun. 05, 1998 ~ Jun. 17, 1999	<2.2 ng/dL
	Jun. 18, 1999 ~	<2.0 ng/dL

### CARDIOVASCULAR MEASURES

### 1. Assay Variables

Variable	Assay	Units	Calibrated
CHOLRES15	Total cholesterol calibrated result	mg/dl	Yes
HDLRESU15	HDL calibrated result	mg/dl	Yes
TRIGRES15	Triglycerides calibrated result	mg/dl	Yes
LDLRESU15	Estimated LDL cholesterol calibrated result	mg/dL	Yes
GLUCRES15	Glucose result	mg/dl	No
INSURES15	Insulin calibrated result	ulU/ml	Yes
APOARES15	Apolipoprotein A1 calibrated result	mg/dl	Yes
APOBRES15	Apolipoprotein B calibrated result	mg/dl	Yes
CRPRESU15	CRP calibrated result	mg/dl	Yes
ENDORES15	Endothelin result	pg/ml	No
FACRESU15	Factor VII result	%	No
FIBRESU15	Fibrinogen result	mg/dl	No
IL6RESU15	IL-6 calibrated result	pg/ml	Yes

### • Additional information:

- Estimated LDL was calculated by the coordinating center using the Friedewald calculation (Total cholesterol -(triglycerides / 5) - HDL).
- If TRIGRES15 > 400 or TRIGRES15 was missing, the LDLRESU15 was set to missing
- A flag FLAGSER15 to indicate incomplete blood draw and flag FLAGFAS15 to identify non-fasting samples are included.

### • Flags and other variables

Variable	Meaning	Codes
FLAGTG15	Flag to indicate that triglycerides>400 mg/dl.	0=no, 1=yes
FLAGSER15	Flag to indicate that lipids were measured on serum rather than plasma because plasma was not available. Lipids for these subjects were not set to missing.	0=no, 1=yes
FLAGFAS15	Flag to indicate that the sample was non-fasting or that fasting information was missing or unreliable. When FLAGFAS15=1, triglycerides (TRIGRES15), glucose (GLURESU15) and insulin (INSRESU15) are also set to missing. When triglycerides are missing, LDLRESU15 (estimated LDL) cannot be calculated so it is also set to missing.	0=No 1=Yes

\*1=yes means flagged

### • Additional flag variables indicating "unusual" results data

- Flag variables have been created for each of the key primary CV results variables. These flag variables indicate 'unusual' or outlying values. They have been identified following examination of the lab results, as well as longitudinal checks on absolute change, and percentage change, in values for a given participant between follow-ups 13 and 15.
- The table below indicates the ranges that were used to identify 'unusual' values in the Visit 15 dataset. Flags for all key variables were set to 1 for any result outside of these specified ranges. In the case of the

longitudinal checks, we have identified unusual cases based on the distribution of the data. No flags were set to indicate the values identified by longitudinal checks.

Lab result	Flag Name	Flag Range	Units
Total Cholesterol	CHOLFLG15	(100,500)	mg/dl
Triglycerides	TRIGFLG15	(20,2000)	mg/dl
Total HDL	HDLFLG15	(20,150)	mg/dl
LDL	LDLFLG15	(25,400)	mg/dl
Glucose	GLUCFLG15	(40,400)	mg/dl
Insulin	INSUFLG15	(1,60)	ulU/ml
Apolipoprotein A1	APOAFLG15	(80, 240)	mg/dl
Apolipoprotein B	APOBFLG15	(60, 200)	mg/dl
Endothelin	ENDOFLG15	(0.39, 25)	pg/ml
Factor VII	FACFLG15	(12.5, 200)	%
Fibrinogen	FIBFLG15	(128,1020)	mg/dl
IL-6	IL6FLG15	(0.78, 100)	pg/ml
CRP	CRPFLG15	(0.00001,100)	mg/l

### **RACE/ETHNICITY**

**<u>RACE</u>** Participant race/ethnicity is provided from the Screener dataset, coded as:

- 1= Black
- 2= Chinese/Chinese American
- 3= Japanese/Japanese American
- 4= White Non-Hispanic
- 5= Hispanic

### SITE

**<u>SITE</u>** Participant study site is provided from the Screener dataset, coded as:

11= Detroit, MI 12= Boston, MA 13= Chicago, IL 14= Oakland, CA 15= Los Angeles, CA 16= Newark, NJ 17= Pittsburgh, PA
